# PRASADI SOUVENIR 2069

## Editorial

Prasadi, as its name calls, has been a boon to all the students who yearn to become Prasadian to enjoy the nectar of its favour. Enjoyment is innate in satisfaction, which the academy fosters. This organization has been the first choice of students and parents since they are confident that it has not moved an inch for its quality within and without.

Prasadi souvenir is a stage on which actors and actresses perform their talent and reveal their pent up feelings. Pent up feelings are like those of flowers which are unseen in the forest and whose sweetness wastes on the desert air. This souvenir does not let the sweetness fade from different flowers of Prasadi. Prasadi souvenir is an epitome of beautiful flowers with their pristine values.

We would like to extend our gratitude to our chief Mr. Bikram Rai, teachers, staff, and students who have inculcated us with a sense of discipline, duty and responsibility and have granted promising support to publish this souvenir.

# MESSAGE

It is my pleasure to know that Prasadi Academy is going to bring out PRASADI SOUVENIR 2069 on the occasion of the 14th Year celebation of Prasadi establishment, I think the souvenir will inspire and encourage its students. It will also provide them opportunities of expressing their ideas, opinions and experiences.

Finally, I would like to express my sincere thank to the family of Prasadi Academy and wish its bright future.

Best Regards !

Hem Kumar Mishra.

(Dr. Hem Kumar Mishra)
Vice-Chairman
HSEB

# MESSAGE

Prasadi Academy, being the number one college in Nepal, has been providing condusive environment to students to trace their potential and aptitude out. This institution has been helping students be familiar not only with the different skills but also with the ways of applying their knowledge in their real life and make themselves proficient in their future career.

The annual publication of the souvenir has been a platform for those students who long to give their creativity exposure. This souvenir justifies that Prasadi does not only seek the curricular excellence in students, it rather bestows chances to students to reveal their creative thinking inherent in them.

It is my great privilege to share the joy of incessant success of this institution. It has been possible with the help of teachers and staff who have been working with their brain and brawn. I can't help thanking teachers, staff, parents and students who have been co-operating for this success from all around.

Bikram Rai

Chief

## IT IS NOT HARD TO GET SUCCESS IN LIFE

When we observe our surrounding, we see that many people are successful. We don't see the hidden fact why people are getting success. When we study the life histories of successful people, we find that they have certain qualities in common no matter which period of history they lived in. So, what are those qualities which make them special?

There are different steps that we have to move on to remove all those obstacles which come on our way. The first quality that makes a person successful is *desire*. We should have some desire to get some thing because desire is the starting point of all accomplishment. Then second quality is *commitment*. Integrity and wisdom are the two pillars on which to build and keep commitment. Then third quality is *responsibility*. Responsibility evaluates all the pros and cons, before taking the most appropriate decision or action. Responsible people accept and learn from their mistakes. The next and most important quality is *hard work*. Because of only hard work, a person can be better at whatever he is doing. Excellence is not luck, it is the result of a lot of hard work and practice. Great talent without will power and hard work is useless. Then another quality is *character*. Character is the sum total of a person's values, beliefs and personality. It is reflected in our behavior, in our actions. Character itself is a success. We need to keep building and developing our characters by weeding out our facts. Then we should have positive belief i.e. an attitude of confidence that comes with preparatory. These are some qualities which should be innate in our own behavior to get success.

Actually, this is not enough. To be a winner, certain qualities should not only be accepted. but also we should know our own weakness. First we should try to remove those weaknesses which lead us to failure. No one is born with full talent and knowledge. Skill and talents are inherent and are realized by their mistakes. So, first our weakness should be found out then those qualities should be adopted.

**XII, R3, Mgmt.**

## THE COUNTDOWN HAS BEGUN

Usually, the countdown ends at number one, which is always thought to be the best. But in the present setting, I think number one speaks for the worst of all. I think everyone reading this article has got perplexed. So, for the clarification, number one means the last day of our college life. Hearing this, I think they are going to get a hard stroke right amidst their hearts. I mean, it's obvious for everybody to be sad, after all, they are going to take a step ahead in their lives bidding goodbye to all their amiable ones.

Like others, I am also very sad for the coming last day. I am sad because I am going to go ahead in my life leaving Prasadi behind. Prasadi, that lovely and precious place, where I spent my 2 years with all those unforgettable and fun filled moments spent in grade XI, B11 and XII, K8. The first year in B11 was awesome, great classroom, great friends, great teachers and great laughter created everyday. I really want to thank Prasadi for giving me such a great class. We had great fun together with friends like Alka, Bebika, Kristina, Muna, Nikita, Prerana, Shrijana, Sunil, Sumitra etc. and thanks to all those people who always made us laugh in their jokes. Now, the second year, I was kept in the class with my school friends Rupa, Deepa Ruby, my B11 mates Prerana, Muna, Bebika and other sweet friends like Dikchya, Samykcha etc. We really had great fun in the class. I think now I understand why our senior brothers and sisters thank Prasadi every time on the last days. Moreover, how can I forget the chief sir, a great person who always inspired us to run after excellence, and teachers who always supported us and taught us so efficiently. The teachers like SBH, SK, BKTM, BM, SSA, RKS, KBR, SKLK, KBP, YKG, BCG, CSG will never be forgotten.

Last but not the least, I am really thankful to Prasadi for all those loveliest moments. Furthermore, I just want to say to everybody reading this article, not to weaken yourselves even though the countdown for the worst will begin. Finally, I want to leave a message to my juniors, "Try to have ultimate fun in 2 years in Prasadi, bulk of homework, unpredictable environment etc." Lots of love and respect to you, PRASADI!

**Sweta Shrestha**
**XII K8, Science**

## FRIENDSHIP IS FOREVER

People say that relationships are made in heaven. It sounds true but there is one relationship that is chosen by us and made in our hearts- friendship. Maybe this is the reason why friends are so important and special to us. A person is lucky if he/she gets at last one true friend in their life time but in my case I find myself very lucky to have many true friends.

These friends of mine have been with me in my ups and downs. We've worked together, we have argued with each other, we have laughed,and shared even the darkest secrets. In other words, we have been together in every step. When we walk down memory lane, those funny incidents turn out to be the most precious moments. We know that by the end of this year, we need to be separate but we also know that there will be "goodbyes for good".

A day may come when there may be a distance between us but that distance will not really matter because how many miles we stand apart and no matter what the situation is, all of us know that deep down in our hearts true friendship rests for eternity.

**Prashanna Gurung**
**XII K2, Science**

## MY DAYS AT PRASADI

Though the two years of my enrollment at Prasadi have passed, they are still fresh and alive in the depth of my heart. These two years have stored a lot of unforgettable memories of exultation.

The first day of college was a bit different experience for me. All new faces surrounding me had given a feeling of uneasy. But the first conversation with the students around put me in great comfort. In these two years, I have come across many students who have always been a great source of inspiration for me. The close friends at Prasadi always shared my distress. Their positive supports on the other hand have proved to be the incentives for me. Making noise in the classroom when the teachers weren't around (some times even when they were teaching), eating and laughing, getting up early in the morning and dozing off in the class, packing our bags before the last class was over etc. are the most memorable moments. The moments when we supported and defended one another, the moments when we laughed together can never be obliterated from my closet mind.

The teachers whom I have met in these two years' journey were of different nature. Some were unique and the favorite of all, while some a bit strict and during whose classes everyone used to maintain pin drop silence and dared not to make noise or turn around. Especially the classes of Sudan sir, Som Nath sir , and Sunita maam in Grade XI and the classes of Manju maam in XII were the most memorable ones. The great excitement and zeal we experienced where interacting and participating in class activities (especially in English class ) will ever be missed.

The memories of days I've spent at Prasadi are the most valuable treasures which can not be forgotten. These days have become memorable because of some of my closest friends– Surabhi Shrestha, Soni Maharjan, Swikriti Koirala, Rishu Shakya, Neha Shrestha, Angita Shakya and Renesha Bhattarai. Thank you guys for filling my college days with fun and laughter.

**Pamee Bajracharya**
**XII R6, Mgmt.**

## TEENAGE LIFE

People say teenage is the most formative, delicate and difficult stage of one's life. At this stage, we bid farewell to our childish pranks and look forward to a new life which is full of joy or struggle. If we are a bit forward we are said to be active ones and if we are a little backward it means we are shy. As we are growing into our teens we no longer feel a passion for our Barbie, toys, etc. nor we like to stay indoors. The outdoor games, adventure and risk begin to attract us. In my case, if I hear any fine eloquent speech, I try to pose to be a similar speaker before the mirror. What we dislike is the moral preaching or the tear of parents about risks in whatever decisions and challenges we take. All that we want is freedom to live life the way we wish.

When our parents start objecting on our wishes, we also start thinking like why they forget their young age? Haven't they ever wanted to hang out with friends? Or gone out for picnic, movies? Didn't they ever enjoy their teen life? Why are they so selfish? But the facts that we need to know is that they try to be strict because they have also gone through this phase. They know this stage requires maximum guardianship. Another aspect of this phase of being a teenager is hard, harder than some can imagine, harder than some can remember. It's those years we will never forget though we sometimes wish to wipe them away. They seem to last forever but when we look back at some phase of our lives, they went by so fast. Being a teenager is falling in love fast, talking for hours on phone to our best and close friends, being talked about and talking about others. It's being guilty when you are innocent. It's when we have a million questions that will never be answered.

**Sukriti Bhattarai**
**XII R3, Mgmt.**

# THE FIRST TIME WHEN I MET MY FRIENDS AT PRASADI !

Travelling through my past memories, my most memorable incident at Prasadi Academy was my first day. I went to Prasadi with my senior Shristi Shrestha who was studying in Grade -12. I also had my friend Prena Shrestha whom I met just before going to college.

When I entered Prasadi I was really scared and nervous as it was the 1st day of college. Our name and section was pasted in notice board. My senior Shristi left us to notice board and went to her class. I along with Prena were separated and were in different classes. She also went to her own class. I was alone standing. I belonged to section B10. Our section's students were waiting outside the classroom to be followed by teachers. There I saw two girls wearing glasses and talking with each other. I tried to talk with them and I made them friend. One girl was friendly and she was Surena Shrestha and another girl seemed really bookish and strict in nature. She was Shreeya Shrestha. However, I made my journey of class 11 very easily with them. They are my best friends now.

I am studying in class 12 now. I have made lots of friends in Prasadi. Prasadi is very strict in rules and regulations but still it's the best college ever. The precious moments which I spent at Prasadi are still fresh in my mind. However, I will also miss my bench partners Asmita Sharma and Gimmi Shrestha a lot. Laughing, eating, singing with friends and pressure of homework is also a great fun. In spite of loads of bags, pressure of homework and exams, Prasadi provides you a disciplined environment where you can study comfortably. So, there's no point in choosing other colleges because Prasadi has always been the best college of all.

I have shared my one of the best memories to all. The great and friendly teachers will help you create your golden future. And the knowledge you take from Prasadi will guide you to success. I am really fortunate to get a chance to study in Prasadi.

I guess! it's time to say goodbye to my dear family Prasadi. I really don't want to leave you because I love you Prasadi. And at last, I am proud to be a Prasadian.

**Gyabina Maharjan**
**XII K2, Science**

## MY FEELING TOWARDS MY PRASADI

At first, I want to say something about our chief sir. He is the best person for me because he has the capacity how to encourage and lead others properly. It's the time for us to work further for future career. But, I do not worry about my future because I have been gifted a right suggestion by my teachers and chief sir who believe in hard work. Chief sir is the source of inspiration to all of us. He is equal to all students, no matter how much talented we are. He is capable to make anyone to secure their bright future. He makes us perform best. I never know when and how I dare to step out in this competitive world. And I heartily want to say one thing that our chief sir is the best person to guide us properly in our life journey. Thank you sir.

I still remember the moment of being a Prasadian. I still remember my days in Prasadi. I was in day shift science faculty. I learnt so many things. So I love Prasadi and also I feel very proud to be a Prasadian.

I made so many friends and I behaved them equally well. Among them Ranjana, Roshani, Priyanka, Eva, Bindiya, Poonam, Sujha, Bidusi etc. were some how closer to me. By the time, I passed my class 11 and reached grade 12, I really had lots of fun with my friends. And one thing that I find everywhere is the "friend" and friendship between us.

I remember that all teachers were very good. I enjoyed their lectures. The most important thing about them was their motivating skill. My teachers BM, NLK, CSG,YKG, JPY, SK, KBR, RRG, SKLK, BCG and KBP were very much supportive.

Another important day was the last day of my college. On that day, I had some sort of sorrow. And I recalled passed moments I enjoyed with my friends and teachers. And I passed my two years college life well.

Whatever the time was, Prasadi really gave us a lot of memories. The days I spent being a Prasadian was very memorable. And time table of our chief sir, oh! God! is really very tough but it is for our betterment.

I love Prasadi and it will remain in my memory for ever. Thanks !

**Bibha Yadav**
**XII K2, Science**

## EDUCATION? WHY? AND FOR WHOM? THINK!

Many times, a question arises in my mind and puzzles me. Why are we studying? To earn, to sustain our future or to learn? Many of us including me think that study helps us live a happy life in future. It helps us to find a job and live an economically sound life. Ah, I remember the words of my school teacher, "Never compare study with money. Study isn't a business or a deal. Study to learn, not to earn". His great words that will guide me throughout my life.

I can give you examples of people who studied science, completed their degree and are now working on small positions in government offices. I know people who completed their education and are highly qualified, but are still wandering around to find a job. And I even know people who just passed SLC level and are living a profound, economically sound, and a happy family life. Then, what's the use of study if a qualified candidate can't show his qualification and an unqualified fellow can live a happy life? A big question, that strikes my brain sometimes, and always frustrates me. We lack something, a determination, a passion although we study. We always put money at the first place and study at the second. My grandfather did so and my father did the same. Maybe, I too will continue the trend. And my future generations will follow me. 'What's the change?', I say, 'What's the use of studying then?'

I'd like to share my own bitter experience here. My parents dreamed about me to be a doctor. They said and everyone said, "Doctor is the most respectable and most profitable job in Nepal". "Ah, after being a doctor, I'll be able to earn so much. Now, life will be different", I too began to feel. But, with time, I started to love physics, a subject that was quite aloof from my parents' dream. What's my mistake? Nothing, but still when I reached grade 12, I took Biology as my major subject. I chose to bid Physics farewell. How could I let my parents' dream go in vain? Ha ...ha, I laugh at myself now; I listened to my mind, not even once to my heart. And when I started to re-correct, it was too late. This was the greatest mistake I have ever made in my life. I always told others, "You are good at something, leave it and try to be good at other things". But, I was wrong. I learnt a new lesson, "Try to be the best at what you're good at ". All are destined to do something. What we lack is determination and dedication. If you want to achieve something desperately, you have to be madly dedicated to it.

Sometimes, failing to make right decision at right time can lead you to problems full of puzzles. But you can't correct it. So, I personally feel that you shouldn't keep yourself busy remembering those mistakes. You have whole life for improvement. It takes time, but if you have faith in your dreams, sooner or later, you can achieve miracles. Time is what harasses you sometimes. "My friend has reached the top and I'm still at the bottom of the great mountain, yet to make the first attempt". This sort of feeling may develop in you. You compare yourself with others and you try to compete with others. No, no, this will do you no good at all. You'll gain something only temporarily like this. What I personally feel is that, you have to compete only with yourself, with your past, not with others, try to improve each day and never keep yourself busy looking back, otherwise you can't see those who are waiting for you forward and they'll perhaps go forever and you can't meet them even when you desperately want to.

And at last, study is what comes at the top of everything. A best friend of mine told me at school, "Study is not a burden but an interest that one seeks". I didn't get it first but now I think I am to figure out the real meaning of what she said. Study becomes interesting only when we study what we love to. And we all have to admit that we make things complicated ourselves by not doing it in time or by doing it improperly. We are just approximately at one quarter age of our whole life. Still, things can change really; you study what you love studying, not what others force you to or what leads you to money and money. Never put money in front of life. Then when you reach at the top, you'll look yourself with honour, with respect. Think once properly what you are doing and why you are doing!

**Sujan Kafle**
**XII K5, Science**

# MY SALUTATION TO PRASADI

Everyone knows the success of Einstein but few of us have noticed several years of struggle behind his grand success in science. Motivation and inspiration are taken from struggle behind the success. Prasadi, the number one college in Nepal, which has been rewarded with National Academic Excellence Award is a great example of success in itself. Parents, guardians, students and the rest of all don't fail to praise its success in educational field but very few among us salute the people behind its success. The teachers here have given several years of precious time of their life with full dedication just to make it what it is now. The contribution made by non-teaching staff too seems equally mesmerizing.

Being a part of Prasadi family, I heartily salute the team of Prasadi for providing us such platform from where we can make perfect image of success in coming days. In these two years of journey in Prasadi academy, I have learned to be independent. The teachers here have taught us to be dedicated to our study and work. The motivating lectures of chief sir have always boosted up my energy to continue my struggle for success. Of course, I must not forget to say thanks to all of my teachers, including RKS sir's inspiration, Hamal sir's energetic class, RRG sir's motivation and inspiration and SSA mam's hopeful saying "Padha hai timiharu" . All of them have always made us feel special.

During these two years, the golden moment shared with Prasadi is the best time of my life. All the friends of "B4" and "K5" specially Soni, Sapana, Tripti, Biyas, Ases, Amor and Ramu will be missed. Canteen's coffee, Soni's tiffin box, picnic, homework load will remain fresh in my memory.

To sum up, the single page is too limited to unleash my feeling and emotions. Now, the time is near to change us from Prasadian to ex-Prasadian. I thank Prasadi Academy which taught me to be confident and made me feel that every one has ability to pull themselves up by their boot straps. I heartily salute Prasadi for making me someone from no one. I am always proud to be a Prasadian.

**Smriti Bohara**
**XII K5,Science**

## VALUE EACH MOMENT

To realize the value of one year,
Ask a student who failed his or her exams,
To realize the value of one month,
Ask a mother who gave birth to a premature baby.
To realize the value of one week,
Ask an editor of a weekly magazine,
To realize the value of one day,
Ask a daily wage labourer who has six kids to feed.
To realize the value of one hour,
Ask the lovers who are waiting to meet,
To realize the value of one minute,
Ask a person who missed their train.
To realize the value of one second,
Ask a person who survived in an accident,
To realize the value of one millisecond,
Ask a person who won a silver medal in the Olympics.

**Kanchan Rana**
**XII Science**

## SOME INTERESTING FACTS

- The cockroach is the fastest animal on 6 legs covering a meter a second.
- The only two animals that can see behind itself without turning its head are the rabbit and the parrot.
- 'Hippopotomonstrosesquippedaliphobia' is the fear of long words.
- A hippopotamus can run faster than a man.
- The whip makes a cracking sound because its tip moves faster than the speed of sound.

**Shaily Sharma**
**XII K8, Science**

## A GOOD STUDENT

A - Always liked by teachers.
G - Greets everyone with a smile
O - Obedient to teachers and parents
O - On time to a school or learning institute
D - Dresses neat and clean
S - Studies with interest
T - Treats everyone with respect
U - Understands everything taught
D - Does daily homework
E - Eager to know new things
N - Never misbehaves
T - Talks less while teaching in class.

**Rajyalaxmi Shah**
**XII, R3, Mgmt.**

## MEMORIES...

Whenever I go through my past I find memories and only memories. The days I spent in Prasadi were one of the most beautiful memorable moments of my life. It feels like I just entered Prasadi yesterday but today I am at the end of my college life. How and when the time passed I didn't know. Really I will miss those two years which passed like two seconds. This college has given me a lot of things, good education, friends, courage as well as proper guidance to touch the peak of success.

Today also I remember my first day in Prasadi, in the crowd of many students who had come from different places like me to make their dream true. The first day, I was very nervous because it was a new place for me, new people and new friends. But as time passed I also became familiar with this new environment. I found Prasadi as my new family. Teachers over here were like my parents while friends were very co-operative and helpful.

I will miss all my beautiful days which I spent in Prasadi along with my friends Snehi, Shaily, Shuja, Kavya, Bidushi, Poonam and all others. I will always remember the joys which I made with the friends of XI, B6 and XII, K2. I will miss the lunch time when my friends used to argue to eat my home made chapattis and Shuja's home made pasta. I will miss all of our jokes and copycat. I will never forget the dance of picnic and that tiredness after reaching home. I will always remember the jokes of KBR sir, smily face of BCG sir, best teaching technique of RRG sir, dimple of CSG sir, guidance of BM mam and all of other supportive and encouraging teachers.

When I had first left my home and my family my eyes were full of tears and today when I'm going to leave Prasadi same feeling of losing something important is going within my heart. Today I'm going away from Prasadi but Prasadi will always remain in my heart.

Lastly, I want to thank Prasadi, teachers and the whole management for making me capable and building my career's foundation. For each and every success of mine in the future the credit goes to Prasadi. I always pray to god for Prasadi's further success and progress.

**Arpana Bhatta**
**XII, K2, Science**

## REMEMBER WHAT IS IMPORTANT

A story tells us that two friends were walking through the desert. During some point of the journey they had an argument, and one friend slapped the other one in the face.

The one who got slapped was hurt, but without saying anything, wrote in the sand :

'Today my best friend slapped me in the face'

They kept on walking until they found an oasis, where they decided to take a bath. The one who had been slapped got stuck in the mire and started drowning, but the friend saved him.

After he recovered from the near drowning, he wrote on a stone:

'Today my best friend saved my life'

The friend who had slapped and saved his best friend said, 'After I hurt you, you wrote in the sand and now, you write on a stone, why?'

The other friend replied, "When someone hurts us we should write it down in sand where wind of forgiveness can erase it away. But, when someone does something good for us, we must engrave it in stone where no wind can ever erase it. Learn to write your hurts in the sand and to carve your benefits in stone."

**Nikesh Maharjan**
**XII R2, Mgmt.**

## MY MEMORABLE +2 LIFE

All the happiness that was needed by my heart,
All the loneliness that was tearing me apart,
All the sadness and fear came to an unbelievable end,
When in Prasadi, I found many wonderful friends.

All the fun that was missed by me,
All the pain that was hidden inside me,
Suddenly turned into happiness,

Which gave a full stop to my painful loneliness.
The affection I've got here,
Has changed my life in such a way,
I may write thousands of poems about it,

But still I won't be able to say.
The bond of our friendship has become so strong,
No one can break it even though anything goes wrong,
Because we'll all stand together,

To share our feelings and to care.
All my friends and all their memories,
Are deeply rooted in my heart,
The time that we spent here,

Has been like a beautiful creation of art.
All those gossips and all the jokes,
All will be now just a memory,
These memories will always be with me,

Like a bunch of leaves grow in a tree.
These two years have passed in the blink of my eyes,
It seems like yesterday I joined here,
But time has come to say Good bye,

Everything moves together with the blowing of wind.
All are linked so close to each other.
Enjoying the rain and sunshine,
Will always be together,
To share love and care.

**Barsha Karki**
**XII R5 Mgmt.**

## A POEM ABOUT EXAMINATION

Oh! It's an examination
Must study with concentration
English with its punctuation
Maths with its calculation
Geometry with its construction
History with its civilization
Economics with its production
Physics with its variation
Chemistry with its equation
Computer with its application
Oh! Oh!
Can't even do meditation
So, there is no time for relaxation
When will I get a promotion?
To another class of confusion.

**Shriya Tamrakar**
**XII R1, Mgmt.**

## THE MOST MEMORABLE DAY

It was a normal day at our college. As usual the class started at 6:40 am. We always have our lunch break after the second period i.e. at 8:20 am. We have very good canteen in our college which serves us very delicious food. I (Swikriti Koirala 3860) and my friends (Surabhi Shrestha 3838, Rishu Shakya 3842, Pamee Bajracharya 3839 and Neha Shrestha 3854) went to canteen to have our lunch. We have a coupon system in our college canteen. So, following the rules we took coupon and were waiting for the food to be served. After about 10 minutes, we got our food in front of us. We ate very quickly and had a very little time left. We also had to go to the restroom. As we were five of us, it took very long time for every one's turn to come. Finally, when we all had finished, we headed towards the class. But we found our chief sir (Mr. Bikram Rai) in the middle of the way to our class i.e., near the clock. He was standing there with his hands on the waist. We all were very worried and frightened looking at his angry face. We thought that we would get a stick. But he asked us to stand in front of the clock for 50 minutes without asking us our reason to be late. We also couldn't explain him because no one had courage to speak with him. We followed his order and stood in front of the clock. After sometime chief sir went to his office and we were guarded by a guard (Dinesh brother) and he was teasing us. We threatened him by saying that we would complain to chief sir. At 9:10 am we have a lunch break for grade 11 students. It was so humiliating to stand there in front of them. Everyone would take a glance and whoever passed by would ask what had happened. After the lunch break of grade 11 students was over we were asked to go to our respective classes. Even though it was humiliating, I smile remembering that day. It was the most memorable day for me and my friends in Prasadi Academy.

## IS IT ALWAYS BEST TO TELL THE TRUTH?

"When you speak the truth, you don't have to face any problems." We always hear this from our elders telling us to speak the truth. But what if the truth, a bitter truth, hurts someone or has a bad impact on? The "White lies" those are spoken to protect somebody's feelings are not a big deal at all.

It is obvious that truth is always bitter. But being truthful is an important quality that a person should possess. Jesus says truth sets you free, but only if you always speak truth even though it is unpleasant. Lies are usually told to deceive others. Truth remains truth and true no matter we recognize it as truth or not. So all the great personalities, Gandhiji or Lord Buddha, inspired us to follow the path of truthfulness. It is important to accept the reality, the way it is.

On the other hand, some conditions are such that we should tell a lie. If a lie can improve some patients' health by developing an energy and not telling him about his illness, then why don't we speak a lie for saving somebody's life? Telling a lie which does not hurt anyone is not a big deal. "That looks very nice on you" pleases the other person saying "everything is going to be alright" in a bad condition that can develop some strength to cope up with.

People speak lies for various purposes. Some lies harm others and help no one. But some lies can help someone. Some lies are told to hurt no one but help some one or somebody's life.

The world is not running through the truth. There are some lies existing in our world. God is not the absolute truth. You have never seen and heard Him. But you still believe and have faith upon the God. We lie children about the existence of Santa and they still believe on it.

No doubt, truth can lead us to success. We should speak the truth. However, telling a lie to help somebody or to save someone cannot be regarded as a bad thing. So, I accept that it is not always best to tell the truth.

## PRASADI ACADEMY IN MY EYES

Everything in this world possesses positive as well as negative aspects. But I think our view is responsible for all the things that occur.Similarly, all the students may not have same opinion towards their college. I too have some views towards the college where I studied.

Although I have studied in Prasadi Academy just for two years, I feel I have long relation with it. The thing I adore the most here is the good management. It's really a challenging task to manage the college students. Despite having many obstacles, Prasadi has succeeded to achieve its goal. Some students take life in Prasadi as in a jail, but I really oppose this view. In my view, Prasadi isn't very strict. It has rules and regulations that is required for us.

I got good lessons from the management skill of Bikram sir just looking at his activities and participation fully in college. I think he is an inspiration for all the students. It's not that I didn't get any punishment here. I got too. But I confess that it was for my betterment. Also I would like to write some words about education here. Prasadi always gives emphasis on education rather than other facilities. The best teaching technique is clearly seen here. Therefore it always succeeds to give 100 percent result.

I feel proud to say that I have studied in Prasadi academy. In another word, it's my pride to study here. Whatever happens and wherever I will go I have earned a valuable learning here in Prasadi academy. My words are not to flatter Prasadi but my heart feels all this truly. Although we all Prasadians may accept it or not, it's the fact we have got good stamp for our success.

## GLORIOUS +2 LIFE

The beautiful two years are at the end,
That have given colourful memories with friends,
In the beginning, life was really tough here,
Our teachers were never partial but always fair.

Care was culture and discipline was the main key,
Their devotion for our welfare, we could always see,
Slowly the time went on,
And I realized, life is not always for fun.

Whenever I was lonely,
My friends were there for me,
And whenever we were worried about our future,
Our teachers were there to encourage us with care,
No matter how far our destiny takes us,
But those mesmerizing moments will always checks us.

We came with smile, and now our eyes are full of tears,
As the time of farewell is near, everyone is carrying a fear of departure,
No one even science can stop the pace of time,
My wishes will always be with you friends;
And I know you'll shine.

**Roshita Karki**
**XII K8 Science**

## IF OUR IMAGNATION COULD, WHY NOT WE?

So smooth and calm ... just moving ahead, straight to a place, that's completely new, strange and unknown. Even though it's strange, it's so beautiful and peaceful. Neither it brings any fear in heart nor any tears in eyes. Just I can see the innocent eyes and a soft smile, glowing so bright with a hope for better tomorrow. It's not me that's moving, but it's my thoughts flying so high crossing every limit, every hurdle and ups and downs from flowers to flowers, leaving all the worries behind, back in a place from where it can't escape.

Oh! where have I reached? A really beautiful place, so much like a paradise of my dream. Look! there's someone, abiding for something. "Excuse me," I say. Just then he disappears. Oh God! what's happening? Am I just dreaming? Or this is a reality. I'm so confused. A little far, I could see my friends, calling my name. I move towards them slowly moving my eyes around the beauty, the enchanting view of glowing sun, playing birds and many. " Why did you take such a long time to come? We were so worried", one of my friends say. Just then I feel as if I was out of dream. I realize I was dreaming or I can say I was in the world of imagination. I look all around then I notice that I am still in the same world, which has been losing all its beauty, like a tree that loses its green leaves away in winter.

A cold chill goes through my whole body and I stand still, so much like a statue, thinking of reaching somewhere, touching anyone's heart, gaining popularity etc. I feel a kind of sadness. My world's suffering now with pains and sadness. Not even a single person has peace in mind. Neither there's peace in any country nor in any soul ... just the conflicts among humans. There's no humanity, no feeling of brotherhood. The only thing we have is the dirty mind that keeps on making plans to rob, to cheat each other. Uff! what a pity and shameful life we are living. Can't we change the ongoing situation? Can't we make this world, a better home again? Can't we wash out our dirty mind? Can't we do anything?

There are so many questions, but where to get the answer? Just then I hear someone whispering, "Yes, you can do something ... if your imagination can fly so high, why not you? Every human is so special, realize what you are, what you possess and have the confidence and step forward. You can gain what you want". What is this? Who whispers in my ear? I look around but no one is there ... what do you think is it? For me it is a soul with a hope for better tomorrow.

**XII R3 Mgmt.**

## A SMALL ACT OF CHANGE

Change is what we need. Usually we believe that changes come from big things which we alone cannot accomplish but this is quite wrong. Change also comes from small and little things that we can do on our own. It may not bring immediate results but it will certainly make a difference.

We can make a lot of small changes that can actually help our country and entire world. But these things are generally ignored. Let's take an example of garbage management. We have serious problem regarding garbage management. In reality, a large part of the house hold wastage are bio-degradable. One can also make compost manure out of it and use it in garden, kitchen etc. It can also be sold if the amount is large. It can be used in cultivating fields. But many don't want to do it. If they do, the garbage management may not have been a problem. It is also very pitiable to see people throwing wrappers, garbage etc. and also spitting here and there on the road. This degrades our environment and it affects us. We can change these things if we try. It is true that it is not easy to do these things together but nothing is impossible if we try.

Like drops of water make an ocean, one small act brings a big change. It doesn't come itself. We have to bring it and we can bring it. Let's make a commitment of making small and little acts of change.

# DAYS IN PRASADI WITH MY FRIENDS

When URT sir came and said, “Timi haru ko picnic najikiyeko awasthaa chha”, everyone burst into a laughter but I couldn’t. Something stopped me from laughing that was obviously the realization of the time I was leaving my friends, my college, and teachers soon.

When I was in class 10, I used to travel by tampoo. At that time, I saw many Prasadians. I used to get so shocked seeing different numbers in their sweater and I always kept on comparing one Prasadian’s number with another which never matched. So, that was a mystery for me until I got my own Prasadi uniform exactly after a year.

Class XI was fantastic. Sweet friends like Alisha, Bipasana, Shristi, Sarina, Sushant, Sawan were there. SBH sir’s “Ghass haru ....” and “Bangara ...” always made me think “what teacher yar!”. RKS sir’s “Chiya khau chiya”. BKTM sir’s “Oai...” . There are many expressions like them, but I do not remember them all now.

Besides studies, we did many naughty things but calmly, so we were never scolded. We enjoyed panipuri, chatpati after college. And even marathon race to reach home after eating something at Madhuram. These are unforgettable moments from Prasadi. Thank you Prasadi and my Prasadian friends. I feel my 2 years passed like 2 days. It’s like yesterday I came and today I am waving it ‘ bye!’.

I love you Prasadi
Love you my friends
I’ll never forget what you have given me.

**XII K5, Science**

# FOURTEEN LINES NEVER TO FORGET

## MEMORIES

Memories, quite vivid, as they seem,
Takes me back to the time,
The vibes I can still feel.

Time flies indeed, for it has flown,
Can't prolong those moments,
For it has already gone.

The morning sun, it shone to its brightest,
Mouth dry, stomach lurking,
I made my way, to my formidable attempt.
Times passed, it went dark and cold,
But couldn't deny the challenge,
It was the same old.

Now it's time to cast goodbye,
Can't linger onto those moments,
Because time flies, soars high.

Good moments, they are worth to be cherished,
Bitter ones, they are worth letting go,
Memories, let them remain vivid, let's hope.

**Shreezal G.C.**
**XII R3 Mgmt.**

- Never give advice unless asked.
- Beauty is power; a smile is its sword.
- True beauty consists of purity of heart.
- A room without books is a body without soul.
- The great aim of education is not knowledge but action.
- Don't waste your time in praising others try to be greater than them.
- Success goes to your head, failure to your heart.
- Never find your delight in another's misfortune.
- Genius does not argue, he creates.
- Success is a journey, not a destination.
- Life is a flower of which love is the honey.
- A pessimist is a man who looks both ways before crossing a one- way street.
- Time is a rat that cuts the thread of life.
- Who wins after defeat is a true winner, who fails to try again is a coward.

## WHAT IS MORE IMPORTANT?

Everyone wakes in the morning,
But to wake is not only important,
To wake up with the feeling of new enthusiasm is important,

As just that feeling can give you enough energy for the day.
Everyone washes his/her face after getting up,
But to wash the face is not only important,
To wash away all the tenderness of yesterday along with is more important,

As the washing of your soreness helps your day go smooth.
Everyone thinks of the plans of that very day,
But to think or make plans is not only important,
To well-manipulate your plans of the day is more important,

As the well-manipulation of your plans builds up your confidence.
Everyone has his/her meal each day,
But having the meal is not only important,
To satisfy in what you are having is more important,

As it increases the taste of whatever you are having.
So, whatever you do, do with full grace,
Add some worthy reasons in every work you do,
Find something more important in everything,
Because every single day is substantial in respect to your future.

## POWER OF POSITIVE ATTITUDE

As everyone knows that the way of living in positive way is known as positive attitude. Positive attitude is well known secret of success as it has got lots of advantages. I once read that there are no solutions when we focus on the negative attitude. We have to see the brighter side of everything. So, to be positive means to be happy and it's a human desire to live happily. A friend of mine frequently says that human mind consists of two thoughts; one positive another negative and it's up to us how and which we play with.

It is said that "nothing can stop a man with right mental attitude from achieving his goal; nothing on earth can help the man with wrong mental attitude." That's why if we have positive thoughts we can tackle with every sort of situation quite easily. Here are few quotes related to positive attitudes :

1) Attitude is a little thing that makes huge difference.
2) Happiness is an attitude. We either make ourselves miserable or happy and strong. The amount of work is the same.
3) Think big thoughts but relish small pleasures.
4) To be upset over what you don't have is to waste what you do have.
5) The only disability in life is bad attitude.
6) Being in good frame of mind helps keep one in picture of health.
7) Life is great. Don't let circumstances and society fool you to believe what is not.
8) Excellence is not skill it is an attitude.

# MEMORIES IN PRASADI ACADEMY

I still remember the first day I entered Prasadi Academy with full excitement and planning. I never expected that my college life would be more complicated than my school life. Yet, I earned lots of enjoyable memories in these 2 years.

Now, after I have finally completed my +2 studies, I have realized that my college days are over. I feel a bit disappointed that those days of laughter, fun and pranks with my friends have come to an end. Looking at the systematic schedule of Prasadi I feel relief and satisfied now ! 'No more homework' 'No more exams' No more scolding from teachers' 'No more hairstyle checking from URT sir ...' bla bla bla. Unexpected bag checking, chief sir's unexpected visits, homework checking at the end of the session, however, 'Picnic' is the best part of Prasadi Academy.

I feel really sorry for my B6 teachers who always warned our group for making noise and gossips (class XI B6). I remember our 2 benches, my friends who were really notorious and were always black listed for continuous complaints. I just want to apologize to our teachers who did their labour best to control us . They were really amazing and now at the end of the session, I feel very much thankful to them for their continuous guidance and support.

I can never forget my wonderful times with my 'K2' friends. Sec K2 is the best batch for me, full of laughter and fun loving class mates. It makes me laugh when I remember our extraordinary doors of K2; the first door was a door without door, 2nd was a door in the middle of class used for fooling our teachers and the 3rd which was the main entrance door and it never opened hahaha !

Our Friday eating programme in our regular junctions after college is unforgettable and our 20 minutes college canteen break was never sufficient for us to complete our gossip. Picnic time was awesome, full of dance parties showing our hidden colours.

The best part of Prasadi are our teachers. I can never forget KBR sir's unusual jokes which never made me laugh, JPY sir's huge bag and colourful sign pens he used, CSG sir's cute dimples and his way of shaking head constantly (yes/no), YKG sir's way of persuading students and his funny English grammar. Every teacher is especial. BCG sir's way of teaching organic chemistry is fabulous !!

I have realized that my decision to enter Prasadi was the best one I have ever made for which I will never regret. Have your wonderful time here. Just have patience and focus on your goal! Do not forget it's equally important to balance your studies along with personality development.

**Gimmi Shrestha**
**XII K2 Science**

# INTRODUCTION OF PRASADI ACADEMY TO THE WORLD

"Prasadi Academy" is the name of the institution in Nepal where care is thought to be the culture. This institution believes in reality and farsightedness. It is only one of those largest institutions which is handled by single hand and is amplified and regenerated by a router for the betterment of work to the clients.

This institution provides a sense of equality, fraternity and liberty to all the students. It is believed that active body can produce active mind which is being applied at none other places than at Prasadi Academy. Discipline is the pillar of Prasadi Academy on which it hangs like one of the seven wonders of the world.

Peace, manner and punctuality are the characteristics which you can learn from the students of Prasadi Academy. Regularity is one of the salient features of Prasadi Academy. This institution has taught the students to run towards the excellence so that success will follow you. This institution carries the aim to make the student, the man of value in future rather than the man of success. This institution has its own principle to make the students independent in the 21st century of scientific world. Prasadi Academy is the big name in the small country, Nepal like Mt. Everest of the world.

At last, this is the best institution among the best ones in the nation.

**Santosh Kumar Yadav**
**XII K2, Science**

## LIFE

What is life? Anyone has answer for this question. Probably yes. And probably everyone has different answer for it. Scientifically, one may say contributive action of organic component results in life. Philosophically, one may say life is period of survival when someone lives the fullest. Yes, life has different meanings with its different perspectives. Actually there is no a single definition of life. Then let's go to question when life starts. Is it when the first fettering beats of the primitive heart of a fetus starts, or when the child is pushed from the womb into the world? Does it all actually start at the moment of conception when the egg and sperm meet and mix their genetic code together to create a new being? Who can say really? No one knows because no one is sure of when life truly begins. Going out of the question, life has different meanings. "Life is beautiful and yet life is not always the bed of roses", it is full of ups and downs. It has many facets of blessings and successes. To some people, life is hard, cruel and merciless. These people take life as punishment through out their entire lives. They therefore resign themselves to fate, believing all is finished. To them nothing that they do can ever be good. They take delight in committing crimes and maiming others to average their ill fortune. They lose every sense of direction and most of the times, some of them go as far as committing suicide, just to escape the injustice life has meted out to them. But there are those who see life as a challenge, a channel of discovery and innovation, a prospect for success and a gateway to wealth. To them life is sweet, colorful and kind. No matter what sort of situation these people find themselves in, they keep pressing on, believing in a cause, a cause to succeed and get the most out of life. No wonder on what Adage says, "Where there is life, there is hope". Answer for life is not like answer of mathematics it's like writing of literature. So write your own life.

**Prabal Sing Maharjan**
**XII K8, Science**

## LOOKING BACK INTO MEMORIES

It's time to leave, time to board the next flight and move into the clouds of bewilderment and excitement. I remember the strange expression of timidness in me during the first step I took in Prasadi two years ago. Two years passed so swiftly that I got entangled with long derivation of Physics, reactions of Chemistry, diagram of Biology and brain draining in sums of Maths. Never ending gossips during lunch break, long line of checking during exams, picnic, laughter shared with friends, the joy and success and anguish of defeats are what I will always remember. Every small thing that happened to me in Prasadi suddenly seems to be gaining importance backed by the fact it may never happen again in my life. Coming as a raw material, being processed, refined and made into a qualitative living being was a grand achievement for me. Prasadi, the only school I have been to has today made me realize who I am, and prepared me to face the world. Two years gave me two different tokens that will make me remember this institution for the days to come; education and punctuality. My teachers became my guidance who prevailed upon my ego and restricted me from deviating. Meaningful lectures from the teachers, homeworks and canteen movement are what I am going to miss. I hear the call for departure, waving goodbye. I leave the temple of thousand values requesting all my younger brothers and sisters to make use of what they have in hand. At the end, I would like to thank all my teachers and friends who supported me during this long journey and helped me to make Prasadi my second home.

**Gaurav Bir Bajracharya**
**XII K4,Science**

# GOOD MANNER IS WHAT MAKES US GENTLE

Man makes manners and manners make a man. They both go together. A person without appropriate manners is a person without sense and credibility. An individual can manage to survive well without money if one has the manners, but all the money in the world will not make a man happy if he lacks good manners. There is a popular saying in English, "If wealth is lost, nothing is lost, if health is lost, something is lost, if character is lost, everything is lost."

Manners make the character of a man. A man of good manners is also a man of good character. A man of bad manners is also a man of bad characters. Good manners cost nothing but they bring a lot of benefits in return. A man of good impression of himself in the society. A man of bad manners is not welcomed anywhere in the world. All doors are closed for such people. He may be rich, but nobody welcomes him. On the contrary, a man of good

manners finds all doors open for him. He is welcomed wherever he goes.

A good mannered person's words reflect his heart. Good manners can be learnt by watching the behavior of the well mannered people around us. Even from a person with bad manners, one can learn good manners. By seeing how people misbehave , you can learn the things that we should not do with others. Good people guide us to the right path. But men of bad manners warn you against doing what men of good manners do. Courtesy or polite behaviour is the theme of good manners. It is one of the characteristics of men with good manners. Courtesy costs nothing but instead fetches you everything. When you do something wrong say, "Sorry" to the person whom you have hurt. It costs you nothing but it assures the other fellow that you do care for him. Similarly, if somebody does you a favour, you say, "Thank you". Again, it costs you nothing but for the others, it makes him feel very happy and will be ready to do things for you later. If you have no courtesy in you, no one in the world can teach you good manners.

**Prakriti Dhakal**
**XII K2, Science**

# MERITS OF GOODBYE

People come and go. No one is here to stay with you for your whole lifetime.

After all man is born alone and later he will die alone.

It seems weird! You know, the way we relive our life even when our body is no longer there, but our soul and memories we always build are there with the others.

Finally, the time has come to bid you all "A Goodbye"

I sit here at my desk to write a farewell note. My dear friends and teachers are going away, or rather I'm and we're going quite far away from each other. If I am lucky, one day I shall meet them again and that is all I can hope for right now. It has always been the same old story and I'm already tired of it. It hasn't been that long yet that I sat here at my desk writing a farewell note to my school friends and teachers. "Few people come in our lives like a gentle spring breeze and make our lives blossom like flowers. At that moment one feels warm and content, but those people leave us one day, and when they do, they only leave few memories to be cherished forever."

Change is good, all of us change, and every now and then our friends keep changing too. Personally I feel: 'Older the friends are, more precious they become for us.' Those friends from my childhood days will never be forgotten. They have played a vital role to make me what I am today. I parted with my best friend after I finished 10th grade with a common dialogue of farewell all of us say, "We'll stay in touch, there is internet and telephone of course." But things aren't the same anymore. Even when today we are miles apart I love my friend very much and I doubt she loves me equally or maybe more. But distance it matters a lot.

Having your friend right next to you everyday and having your friend smiling in your heart though she might be in another corner of the world feels very different.

As we proceed in life, we become busier everyday, new places, new people and new friends. Yes, soon I had new friends. They made me feel warmth of friendship. Once more, I was happy again because I had a new friend with me.

But today with a heavy heart, it is time for me to write a farewell note for them too. Except for the grief that we're being apart; I'm very happy for them because we all are going towards our better future.

It is a fact to accept that there is always a farewell some time after welcome. It has always been the same, meet and depart. People who have entered my life have always made a difference to me, so I shall never forget them. The mystery ... that is what makes life worthy living. However, the people we meet are always in the same book we are in, only that the pages are different and it is very important to turn the pages of the book so that the story can proceed.

**Aruna Upreti**
**XII K9, Science**

## FARKERA HERDA.....

Starting from a common dialogue “It feels like yesterday when I joined Prasadi but today I’m on the way to leave it”. 2 years passed, but how fast? Though there is a grief inside my heart for leaving Prasadi, everlasting reminiscence that I have made here put a smile in my face.

The speech delivery on the topic ‘verbal error’ by Avash putting the examples of teachers’ way of speaking was chilling. And keeping yourself ready for the flow of questions from SK mam was thrilling. The boring lectures of Physics never entered my mind but the love and care of NA sir gave a new strength to give

emphasis on it every time. And keeping alarm of just 5 mins. before break and the dialogue’sir,samosa khana jane belavayo’ to remind him of the break time was very fine. Truly talented and multi personality SBH sir was to put a life on a dead soul. The only thing I remember of optics class by RPY sir was “Hey buddy look over here”. Wow! And the sweet KBR sir with one new story in his every class was record breaking.It was the most interesting class I have ever attended. The new session K5 with new friends was really entertaining. RL maam, RRG sir, SKLK sir and his physics and RKS sir and his chiya jokes, our picnic were really memorable. Winning in Antaksari by girls over boys was the best thing.

Every one said Prasadi the college of strictness and discipline but in my view it is very homely, friendly and a place where I made many everlasting friends and found best teachers and knowledge. For me it is ‘masti ki Paathasala’.

**Alisha Banjade**
**XII K5, Science**

## HOPE IS ALL THAT I GOT

I kept on falling again and again,
No matter how hard I tried,
But still I tried till my fingers bled,
I wondered and wondered how I would achieve success,
Failure accompanied even if I worked nights and days,

As if it was inscribed in my palm of fate.
How much price do I have to pay,
To save my passion which was fading away?
I was losing my faith, my dreams and dear,
Because illusion never changed into something real,
I was starting to feel , I needed no luck,

Because it wasn't helping me a bit at all.
I felt like the world was upon my shoulder,
I was cold, ashamed, bound and even broken,
But till then, I had a hope,
Hope which built me strong,
Again and again, from my heart a love would say,

"Can't stop now, you have travelled far away?"
I would then rise myself up, to face the challenge,
And never give up,
For my journey had begun and I wanted to end it well,
But for that I had only hope,
For I knew that hope would shake mountains.

**Rupa Tamang**
**XII K8, Science**

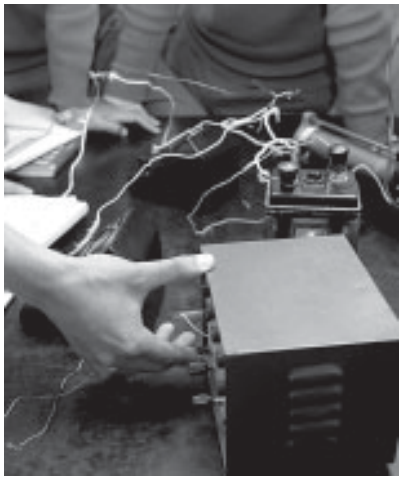
## DAYS AT PRASADI ... IN RETROSPECT

As I sit behind the window sill,
The fun we had in the class,
Together as time passed,
The friends I made,
The pranks I played,
Everything comes back,
As I watch time fly by.

The things we used to do,
When we sat inside the class,
And remarks we used to pass,
The backbiting about others,
All come as a flash back,
As I watch the days pass by.

The care hidden in our silly fights,
The love we showed in our feuds,
The way we helped each other,
Drifts in the back of my mind,
The laughter that lit our class,
And the life we spent together,
I feel the presence of an energy that never fades,
No matter where our future may lie,
The memories will always keep us together.

**Alyssa Shakya**
**XII, K2, Science**



## BEING A PRASADIAN

Hi! it's me Niraj Sah. I am recognized as the most simple and straight student. It is because of my behavior and thought. I came to Kathmandu for the first time for further studies from my village after completing S.L.C. The environment was totally different here from what I had expected it to be. It was a densely populated, polluted and busy city. In this big city, Prasadi became a part of my life where I completed +2. When I entered Prasadi, I found totally a new environment here. The strict rules and regulations guided me. However, doing homework all the time and having our bag checked bored me. I started feeling as if I was not free. Gradually, as time passed I adjusted myself in the environment of Prasadi. Everything became easy. I became familiar with teachers and friends. I found them interesting, too. I still remember the dialogue of some teachers SBH "Ghanss haru," "Bangara Jhardinchu", the way he laughs etc., RKS: "talk with physics" "listen with calm and quiet mind", "Look look, look here" and CSG: "yes or no". If I forgot to bring book or calculator, YKG sir would tell me, "Babu! tero dimag ma memory card lai diu". Oh! I found them very interesting. Most interesting and memorable thing was picnic at the famous spot Tribhuwan Park in class 12. We all danced together even with girls. We all became more frank to one another. We took a lot of photos with friends, teachers and enjoyed to our fullest. I still remember all those days in Prasadi because with time all the events have passed but they are in my memory. Chief sir , teachers, long hair and bag checking, practical classes, dissection of frog, rat, homework, dancing at picnic, friends like Samir Joshi, Prabin, Santosh, ... I miss you a lot.

# MY LIFE IN PRASADI

We the 14th batch of Prasadi Academy are going to be ex-Prasadians. I don't believe that the two years has completed in Prasadi. It seems as if I joined Prasadi just yesterday. Firstly, I would like to thank my parents who advised me to join this college. This college has now become an important part of my life and I feel like I will miss this college a lot. Though the rules are very strict, I enjoyed them and also struggled with them. Coming to college during strikes, on Saturday in school uniform, trimming the nails short, hectic homework and exams, avoiding the cosmetic etc are memorable. I really enjoyed all these rules. This college has taught me a lot of things.

Being a Prasadian I have gained many things. Each and every moment spent in Prasadi is memorable for me . Being a student of S8 in grade XI was so much joyful. Running to canteen for samosha with Soi, Binu and Priyanka, sitting with Upasana and Richa in class and gossiping with Silpa and Srijana are so much unforgettable. Jokes of Sajana and supportive friends of S8 like Sreya, Seema, Radha, Arati, Noori, Swasti, Saru etc. are really memorable to me. Those loads of homework and exams, all came to an end when we left our grade XI, but what to do, we had to bear them for one more year i.e. grade XII.

I was also much worried in the beginning that I had to be separated from my Grade XI friends but I was so much happy when I saw Upasana as my classmate of sec R5 in grade 12, too. My good friends of Grade XI Nirvana and Seema were also with me in Grade XII. It was much more exciting than class 11 to me. I used to sit with my previous bench partner (of Grade XI) Upasana and a new friend of Grade XI Renesha. We used to play games, talk in class, do homework in class, sing songs with Bob, Melina, Rohina, Nirvana, Seema and Chuke, eat Titaura in class with Luna, Samistha and Hisila. I was the funniest one in that class. How can I dare to forget the result time? Bob was always the topper, Upasana the second topper, likewise Samistha, Asha, Deepa and Prakash of our section R5 entering into top ten position. Mmmm... How can I forget the naughty but also helpful boys of our class, Bikram, Milan, Sakchhan, Nikesh, Sameer and Sajan. Yes, they were so much friendly to me. I will really miss the time of picnic at Tribhuvwan Park, clicking photos, dancing with all R'5' friends together.

The inspiring words of MRD sir, Pankaj sir, Manju Ma'am, Amatya sir, RB ma'am and classes with Ratna Man Dangol Sir and Malvika Subbha are really going to be attached in my heart.

Lastly, how can I forget Sandy and Raju; the second last day spent with them will always be memorable in my life.

Thank you Prasadi. Thank you so much for being a part of my life and teaching many things to me and granting me such memories and friends.

**Sarala Chaulagian**
**XII R5 Mgmt.**

# PRECIOUS MOMENTS IN PRASADI

The most unbearable and sorrowful moment has now finally knocked on the door i.e. the time of departure with Prasadi. We, Prasadians are in a very great dilemma whether to listen to the heart or to the mind as heart denies to accept that we would no longer be Prasadians whereas mind says that departure is compulsion and the time can't be halted. Although this intensity has given us a great tension, to some circumstances we are prepared of this painful moment because the reality can't be escaped by any means.

13th Shrawan, the first day, I entered inside the premises of Prasadi Academy with full excitement and with the air of anxiousness. Lots of our friends gathered in front of the notice board to search out their respective section. There, I was put in B13 section, the marvelous class, I entered the class and made new friends. It was raining outside. Our class teacher Saroj sir was the most caring as well as encouraging. I still remember his warm love and care. Likewise, the class would never start without jokes in URT sir's period. His charming face will always be remembered. When we approached the third period, Dotel sir's class, we were really freshened up by his "saeri" as well as the entertaining commercial break. How could I miss Raj Kumar sir and his famous quote "Haeena". Last but not the least MRD sir and his strictness would always be with me. Well! speaking up frankly, I must say, every moment spent in B13 was really marvelous.

Finally, I stepped in R5 section, after the completion of the first year, I met many new friends and got intimate with them as well. How could I forget the struggle that I made through those 8 stairs just to reach my class? This was really much challenging. However, the environment inside the class would always relax me. Our class teachers Reeta ma'am as well as Manju ma'am were always a source of inspiration for us. The most entertaining teacher Pankaj sir and his funniest facial expression which had always created a kind of humorous environment among us can't be erased from my memory. Amatya sir, one of the strict teachers who has guided us in a right track would always be missed. His quote, "Be very up to date, we've a gang of showpiece in the class, well wash your brain, remove the nail polish, we are not going to a party palace but we are Prasadians" were famous in the class. Sometimes, we wished his period never came. However, his motivation has energized us and shown us the right track as well.

Despite all the strictness, I enjoyed each and every moment with a great fun. I could never forget the ups and downs made by me for coming late to the school. Prasadi has taught me the importance of punctuality. Besides this, I've acquired a great source of knowledge and inspiration from the academy. Prasadi has helped me to develop my inner qualities and the excellence for being a student.

At last, I would like to thank our chief sir and the entire Prasadi family for guiding and supporting me to the path of excellence and all my supportive friends Saji, Mallika, Sita, Kritika, Roshan, Milan, Saksham, Sanjeeb, Sarala, Upashana, Samistha, Barsha, Anzela, Rashmi, Seema, Hisila, Luna and Asha. Hereby, I stop bidding a very Goodbye and wishing 'a best of luck' for upcoming Prasadians.

**Deepa Sharma**
**XII R5, Mgmt.**

# PROUD TO BE A PRASADIAN

Even today when I look back to 28th of July, I first stepped into Prasadi's premises as a Prasadian, I still cant digest the fact that I ended up enrolling in the very college I had vowed I would never enter. Hey! Don't blame me for that. I, like many others, was a bit intimidated by all that I'd heard about Prasadi's strict system. But I guess life comes in surprise packages that I believe in the end, turn out to be not that bad. I suppose getting into Prasadi and being recognized as a Prasadian is one of such surprises. It was so mesmerizing I had never expected and yet I wonder how much I would have missed out going If I hadn't rushed to give Prasadi a try.

In these two years that I've spent as a Prasadian, I've found a home here, a place I could look forward to coming to. Yes, it does sound quite odd, doesn't it? A student actually wanting to attend classes? I would have thought the same as well. But like it is often said,"We come to appreciate things when they have gone out of our grasp." In these last days I'm here as a Prasadian and I've come to realize that very fact.

Prasadi has not just given me an education to tackle the world, it has brought me friends who have been the best. They've always been with me, with their constant support. I'll always thank Prasadi for bringing me to the most amazing bunch of people. And to these people, my friends, my confidants, I just want to say that you guys have made my days as a Prasadian a truly joyous ride and I'll always thank you all for that.

To the teachers, I express my heartfelt gratitude for putting up with all our crazy antics and never giving up on us. It is always reassuring when you know that there are people who believe in your ability to do better with every passing day. Truly, these two years have been the best years and today I am truly proud to be a Prasadian.

**Surena Shrestha**
**XII K3, Science**

## I CAN DO IT

Silent whisper from the almighty into my ears,
Words of wisdom that question upon my strength and fears,
My ability to change the world which I was unknown,
Considering myself incompetent and worthless since I was born.

Blurred vision of my future that made my life empty,
Failure had made me hopeless, I had only negativity,
As a pessimist would be, I felt much disgrace,
Wandering in a quest to find my abilities,
I sought for God's enlightening, warm embrace.

For I've realized about my strength and desire to achieve my goal,
Confidence and determination in what I do, I free my soul,
Now is the time to rise and shine, put efforts to my dream since birth,
A dream to establish an ideal land and provide relief to my mother Earth !

**Aanchal Shah**
**XII K5, Science**

## I AND MY PRASADI ...

Prasadi! you are my good friend. I will never forget you. You inspired me to be a disciplined, punctual and obedient person. Whenever I was in problem, you sent me your angels i.e. the helpful, motivating teachers and solved my problems. When I was dying of hunger you offered me food. There was no problem at all being with you. I was eager to see you every time. So, without sleeping early in the morning I came to see you. You took care of me. While coming to college you didn't allow me to take my bike. I think you are fond of king Tribhuwan. So you visit Tribhuwan park once a year. I think your favourite games are basket ball and table tennis because we played only those games for whole two years and we enjoyed a lot, didn't we?

Being a good friend of mine, sometimes you irritated me by calling me for re-test. Whenever I remained absent, you always telephoned my parents and they shouted at me. In every 5o minutes you entertained us in various topics i.e. economics, B. Studies, B. Maths, Accountancy and English. When I first met you I was very much nervous and excited. As time passed on you became a very good friend of mine. At last, I just want to say that I love you Prasadi and I am proud to be a Prasadian. Although I am going far away from you, don't forget me. I can never forget you and all the two years' memories that we spent and shared together. They will always be with me.

**Saroj Maharjan**
**XII R4, Mgmt.**

## Prasadi Life

I entered Prasadi Academy with fear in my heart. I had heard that it was the strictest college of Nepal. I thought I would not last here long. But as my days passed, I found out that life was not so difficult. The homework bothered me a little but I got used to it. The teachers were friendly and made our classes entertaining. I started my journey with section 'B11' and ended with 'K2'. I quickly made new friends. I was a bit disappointed that girls and boys sat in different rows as we used to do in my school. I wanted to write a complaint about that to chief sir, but I could never gather enough courage to do so. I realized that in Prasadi, every teacher was unique and had different styles. The most unique one was JPY sir, his way of saying 'Babu' and moving his hands while saying 'sigma bond, pie bond', was amazing. The heavy bag of JPY sir made me realize that my bag was not too heavy. The way KBP sir said 'Kyaa' and 'hunchha' was too funny. I usually wondered if SKLK sir or RRG sir ever spoke Nepali. The most enjoyable period was of BKTM and Hamal sir. The way BCG sir winked his eyes and laughed while talking made me happy. YKG sir was also entertaining with his unique formula for remembering the reactions. The most unique I remember is 'Ma ma zi cr Al co Ni'. I remember a day before our exam when he said, "I wish best of luck for your exam!" Also, there was KBP sir with his 'halla band' and referring register as 'Hajir-khata', RKS sir will always be remembered for mixing every chapter of physics with 'chiya'. When RKS sir entered, he used to say 'basne, basne' which made me laugh every time. CSG sir also was funny with his smile with dimples. NLK sir with his cap and URT sir with his Bhadgauule topi were too elegant. I also liked the teaching style of BM mam, SK mam and KS mam. The most entertaining moment of my college life was the time I spent with friends. We used to enjoy every period. We also kept nicknames of each other, the famous ones were Torpe (Sauden), Thyau (Samir), Gatya (Niraz), Murkha (Prabin), Pittle (Shashant), Boree (Dibya) and myself as Dozer. All in all, I really enjoyed my life in section B11 and K2 in Prasadi. I will really miss my wonderful moments of my college life.

**Roshan Dhakal**
**XII K2, Science**

## A TRUE PRASADIAN

"Well, you are a student of Prasadi, aren't you? Wow, that's great!"

I hear people say this and take pride in my school. If you are a student of Prasadi, I am sure you will also take pride on being a Prasadian. For me, the time is approaching soon to be labeled an ex-Prasadian. Sometimes, I don't know if you do, but I do ponder on if I am really worthy of this "title".Come to think of it. Do you really deserve the honour of being called a Prasadian, a student of Prasadi Academy, one of the most prestigious schools in the country? When people say you are really fortunate, do you ever think if you are making use of your fortune? Well, whether you do or not, it will certainly be helpful if each of us understands what our school aims at and how we can contribute to fulfill that aim. There are some principles our school believed on, preaches and tries to inculcate within us. Each student should try to evaluate if he/she has these qualities. If you do, then you are really a Prasadian. And if you don't then try from this very moment to be like one.

Our school, Prasadi Academy aims at making its students intellectually competent , morally sound, psychologically whole and imbued with the sense of divine commitment for justice, love and peace. A true Prasadian should understand the prominence of moral values and psychological soundness along with intellectuality. He/she understands that the development and progress of an individual is not worth it if the people around are always loyal to justice and are just. He/she accepts changes when they have the capability of bringing a healthy and new wave in the society. Although a true Prasadian cannot be defined as such, he/she could be called a complete individual who not only thinks of personal pleasures, but also is willing to sacrifice for others, if the condition asks for it. A true Prasadian is an able citizen and a strong pillar of tomorrow for the country.

Most of all, a true Prasadian is an integrated person full of humanity. There used to be a time when I dreaded the corridors of Prasadi Academy more so due to the terror of our Chief, Mr. Bikram Rai. But now I understand how bright there buildings, corridors are that I am about to depart from my 'home away from home,' my school where I studied for 2 years already. The corridors might appear even dull to guests, laymen as I'd prefer to call them but for me they are full of memories that are just too memorable. So one day, I sat down and thought that god granted me such a golden opportunity and if I really utilized the chance. I thanked God that I realized the importance of my school before I was away. And I'm already missing my school.

## MEMORIES

Words cannot be measured,
Memories can only be treasured,
Moments of happiness, moments of love,
Moments of sadness, moments we've suffered.
Moments which we'll always remember,
All come along to form a bitter sweet memory,
Things are forgotten, but memories are enlightened,
Sometimes, they bring along tears with fears,
And sometimes, they come along with moments to cheer.
With pride and pleasure they come in our mind,
Leaving smiles and tears behind.
Cherishing glorious moments, which were so kind,
And this , the only day can find,
Memories of our life time,
Which we have already left behind.

**XII K8, Science**

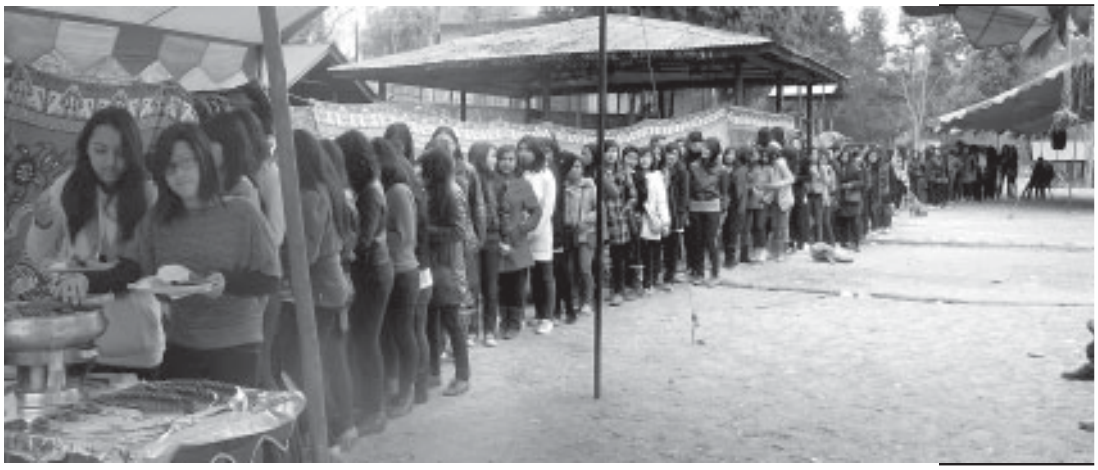
# MY 2 YEARS' JOURNEY IN PARASADI ACADEMY

After my SLC result, I was in dilemma which college to join. Then my parents forcefully joined me in Prasadi. I heard lots of things about Prasadi Academy like strict rules, punishment etc. I thought it was the biggest mistake of my life. But now I realize if I hadn't joined this college, it would have been the biggest mistake of my life.

I still remember my first day in Prasadi. It was the month of Shrawan when I first stepped here. I was really nervous. I went near the notice board to see which class section I belonged to. I saw my name for section B11 . I didn't know where it was and what B stood for. Later URT sir showed me my class. When I entered my class, I saw my school friend, Sumin Sharma Subedi. I was so surprised on seeing him. I shared bench with him because I didn't know any other friends. I still remember the first lecture given by SK mam in grade XI on the difference between prokaryotic and eukaryotic cell with diagram. Later that day chief sir came and told us about rules and regulations. I was amused by hearing that there was no bell system in Prasadi Academy and the break was of only for 20 minutes. I made lots of new friends like Paras, Laxman, Pragyat, Tashi, Sudin, Briain etc.

The first month was really frustrating but I got used to the environment. I will never forget doing loads of homework, carrying all books, visiting barber shop frequently etc. Fun loaded class of BKTM, YKG,KBP,KBR,BCG,SBH will never be forgotten. Oh God! how can I forget samosa of canteen. For the whole year in grade XI we only had samosa. I was having so much fun in grade XI that I didn't notice the whole year passed so quickly. Finally, it was the time for HSEB exam of grade XI. I was really nervous but with courage I gave my best and the result was totally unexpected. I was really sad because I was separated from my friends where as I was happy because I got opportunity to make new friends.

In grade XII I was in section K8. I got opportunity to make new friends like Niraj, Amir (Hb), Kuldeep (singham), Pralad, Sachitya, Sharad etc. Our first class in grade XII was of YKG sir. I still remember his unique example in volumetric analysis, "Mike Tysan ra sana fuchi fight khelya bhane kasle jitchha?" All the funny memories of teacher like CSG sir's Ok ,Ok, last time of BCG, RRG sir's unique smile, chief sir's unexpected visit, RKS sir 'chiya', URT sir's pure Nepali, bag checking are all still in my memory. In the month of Falgun, we went for a picnic at Tribhuwan Park. I had lots of fun in picnic by dancing with friends, taking group photos etc.



I have expressed my experiences of 2 years' journey in few words but there are lots of memories which I will never forget in my life. So, thank you Prasadi for giving me such memorable 2 years. The time table of Prasadi is great. It taught me to know the value of time. Prasadi is really a bright future for students. Prasadi really rocks !

**Samir Sharma**
**XII K8, Science**

## THE EXAM FEVER

Oh! cruel exam dear
Why are we frightened
Through the year?
First term: A little hard, A little easy
For it one has to get busy.
Second term: A little easy, A little hard
I feel a bit nervous
For a start
Question from every part
Like a pack of horses with car
Third term: Many chapters and many more
Future brings a big bore
Oh! boring exam dear
Please be easy
'Any more of it will some make me crazy'

**Nikesh Maharjan**
**XII R2, Mgmt.**

## AN ADIEU TO THE DELIGHTFUL DAYS...

Life wasn't that difficult at Prasadi after all. I mean, at college level, one usually comes with a lot of aspirations. After the schooling is over, every individual who nourishes a dream in their heart and fosters hopes in their eyes is subjected to a vast ocean of options which do no better than confusing them- making them indecisive as to what option to opt for. It probably is the most difficult choice one has to make, and yes, once they choose, they set into one walk of life and hardly can swerve.

I have come from a good schooling background. I studied at a very reputed school of the country, and was provided every opportunity not to let the innate potentiality in me just wither away. My school did really have a great role in making me able to stand as dignified and confident as I am today. When my school was about to be over two years ago, I had a clear picture of next step I would take for my future career. I had planned every encounter in a perfect way, just perfect for me as a person I am. But the very first encounter turned my direction straight opposite. I wanted to study CBSE board and I ended up taking HSEB! Well, I had to face a big action upon my will at that moment. But I had faith, I wouldn't lose my path. And I didn't. I'm happy now, for really good reason that I didn't indulge in an Indian academic degree. The next reluctant decision was to join Prasadi. I had thought I wouldn't want to study in a place

where one needs to give a second thought even to carry a toffee! Thirteen years of strict discipline at school had already trained me enough, I needn't have endured more dictatorship. But my college turned out to be even more strict than my school. What plans I had made to perform at my college levels on choosing the matching shoes and ties vanished in a flicker. I would have to face next.

Surprisingly as it may come to many of my pals too, I started enjoying Prasadi with each passing day. And it went this way because I hadn't had a thought about the positive trade of this institution. We, as young and enthusiastic teenagers, often end

up judging things wrongly- because we barely understand the true values of life and achievements, of dreams and efforts, and all the hands that perspire behind our success. Prasadi is one such a hand, which has patted my back in gesture of acknowledgement and encouragement; sometimes thrashed me in gesture of a warning; and caressed me with gesture of care and guidance. In the beginning of grade XI, I was busy making introductory speeches to a lot of my acquaintances (I was good at making speeches since my school days, participating in a lot of oratory contests nurtured such a skill) who later turned into really amiable companions. They have made this part of my voyage of life really easy and memorable. I never hesitated to approach any shy student who sat at the corner of a bench trying to hide their face away. And I've succeeded in making friends here at Prasadi awesomely.

Studying science these two years had been a challenge since the beginning. The vast gap between grade X and XI wouldn't have been so skillfully bridged had I not opted for joining Prasadi. The teachers turned out to be really helpful, guiding us through every mind- boggling short questions in Physics, simplifying complicated drawings in biology, from organizing our thoughts in solving a numerical to interpreting beautiful prose and poetry. Every little effort of them contributed a lot to accumulate another part in my mind. I learnt very gradually, and step by step, all being laid by the teachers themselves. And most importantly, I enjoyed learning, it never appeared a burden to me, no matter how low I scored in the internal examinations.

I even trained myself to gobble up my food within 20 minutes of the small break we got. And managed to visit the lavatory in the same allocated interval. I coped up with jotting down notes from the teachers. I taught my bowels to digest the hot and spicy food the Prasadi canteen served (though I lament about the times I fed myself doses of antibiotics when I fell ill to typhoid). But the grade XII picnic to Tribhuban park was amazing, simply exquisite. I had never enjoyed dancing like I did that day, with a crowd of more than hundred people on the same floor, at the same time, to the same beats. Each of us was lost in the magic of celebration. I know all of my pals will refer to the picnic as their most cherished memory of Prasadi.

I can write lines and pages about these two years and still not stop. Enjoyment and studies are how obvious things I acquired in this time, but apart from them there are other little things that most of us miss out, to recall, or to add to our compendium of reminiscences, those things that I don't want to miss reminiscing after my college is over. Every person that I've met during this time has been a uniquely gifted character, possessing a unique skill and a unique interest. Every friend that I've known here is a king in himself, of his own little kingdom. Every girl who blushed when I complimented on her beauty has had a unique charm, and all these characters have acquired spaces in my heart and memories. Everyone was genius and they inspired me in different ways and perspectives, different days.

Coming to Prasadi, learning, enjoying, discovering some seduced secrets of life and finding a journey to within have been some achievements I've made, for which, I'm aware, I'll not be bestowed any shield or embellished with any badge- but these little achievements of one or other kind have ultimately contributed to bring out a better part of me every time any thought crossed my mind regarding these matters. I know, after I part from here, I will have become a devoted, sincere and skillful learner, an amiable companion, a sweet mender of injured hearts and a very good narrator. It is because Prasadi has given me a parcel of these experiences, these beautiful memories as a farewell gift. And I leave this farewell note as a gift to Prasadi, friends and teachers.

**Bidushi Pokhrel**
**XII K2, Science**

# IT'S SOMETHING UNPREDICTABLE BUT IN THE END IT'S RIGHT

There was time in my college life when I felt so hectic that I wanted to quit it right away but some beautiful days and awesome friends made me live my two wonderful years in Prasadi Academy. Let me tell you how it was like when this began.

I took a deep breath as I walked in through the gate in the morning of my very first day. I was scared, worried and my heartbeats were running fast. It may sound like in a story, in a drama, in a movie, but I felt exactly this way. But you can call it a story of my life where I had the worst and the best time, where I learnt to give up those stuffs that I've always wanted, where I came to meet many two- faced people known as "so- called- friends" and very few true friends.

I still remember my first day. I was confused where my class was. Then I asked a boy student who was wearing the same dress as mine and was heading to the same direction that I was. As I walked into the class, I saw all new faces. But thank god, I found a bench mate at least. We didn't talk much on first and few more following days. I thought my two years were going to be hard, in fact very hard. After few days, teachers started collecting homework. They were strict more in case of homework. When I was in school, I had always dreamed of having lots of fun in college life. But what the hell! it was exactly opposite. First term came and went. I was so shocked when I saw my results. It was very less joyful than I had expected. In the beginning it was really hellish.

Slowly things started getting a little better. I knew everyone's name in the class. That was hard for me as I didn't talk to all of them much. Everyone started laughing at each other's joke. Strangers became friends. Friends became good friends and good friends became best friends. We started having fun in class, in canteen everywhere. We did many things for fun. Then I came to realize the value of little things that made life great. College life is also about crushes and crashes. Similarly, some of us had crush on our individuality, which now I think was really very childish. It was nearly the end of grade XI when we had so much fun that we were not ready to get separated in grade XII, but we hoped that we would be in same class. Anything could happen, we never knew, after all it was Prasadi Academy.

The classes of 11 were over, preparation leave was over, board exams was also over. The vacation also got over. Again, there came my 12th grade.

I walked in and found few old friends of mine. Thank God! This time was much better than I had expected. But teachers were strict and we wanted to have fun. That was the only problem. We had fun to our fullest but appearing in retests repeatedly was quite embarrassing.

It was nearly the end of college life when we were taken for picnic from college. Oh my God, it was something really very unpredictable. No one ever thought that college picnic was going to be such a blast. I never knew that the teachers in our college were so funny. There I got to see many new faces again. We danced, ate, had our photos taken, had loads of fun. We even made new friends and played cards. Not a single minute was boring. It was something unpredictable, but in the end it's always right.

College life became a very special part my life. Not only books, I got to learn many other things here in my college. I had the best and the worst time of my life here in this college. So I'll miss my college very much. I learnt to give up things which I never wanted to. My true friends taught me what friends are and the value of little promises that we make in our regular life. The two years' period which I thought could be hard for me, but it went in a glance. I came to know the value of strictness in case of homework. It was just to make us upto date, for our own benefit. Well,

starting was tiring but things got better gradually. Talking about crushes, some turned into relationship, some got broken up, some crashed out, whereas, some got into deep relationship which is sure to cast happiness ever after. And now, I don't think giving re-tests repeatedly is a bad thing. It helps students to study more. I got to learn from my mistakes. I learnt that we should never walk away. And all thanks to my college and my wonderful, cheerful, funny and sometimes irritating friends Saru, Barsha, Riya, Sofiya, Bhagwati, Soni, Shriya, Mallika who made my life beautiful. I will miss my college life so much. And now, I'm on the very last days of my college life. I really can't imagine how much I'll miss it later. This is all, about my life in Prasadi. Everyone must have fun in college life. But

one thing that should be considered while having fun is, we should never lose our pride. Before doing anything, think about it and go ahead. Don't think about what people will talk about you on your back if you're right. People keep talking, they say what they like, but all I know is they are just wasting their time and they are jealous to you. That's all.

**Anjalita Bhusal**
**XII R4, Mgmt.**

## UNFORGETTABLE MEMORIES

It was the month of Shrawan and rainy morning. All the students were in new uniform with new energy and hope. When I stepped first in Prasadi, I was very nervous and excited at the same time. I went near the notice board to find the section I belonged to. I was in section S8 and luckily I wasn't alone because my school mates Sazana and Anish were in the same section. When I entered S8, all the unknown faces were sitting and staring at each other. Our class teacher Manju ma'am welcomed us and made us feel comfortable. I must say that the first day of college was OK. Our chief sir surprisingly entered the class room and told us about the rules that we all needed to follow. I thought what kind of rules they were. The strict rules were unexpected. But as time passed, things became comfortable. All the teachers like MRD sir, Bhogi sir, RKS sir, charming Manju Ma'am motivated and encouraged us to study and I found myself as a part of Prasadi Academy.

At first, things were hard to manage. There was a lot of homework. But later I realized that it was the right way to pave our path for a bright future. Then gradually time passed and I got used to the environment. I got a chance to know the friends like Sandhya, Swosti, Radhika, Shreya, Nirvana, Noorina, Aarati and many more. Their presence never made the class boring and dull. I had only just started enjoying grade XI, the session got over. The another chapter of life was waiting for me.

It was the month of Asar, our first day of grade XII. It was more exciting and challenging. My old friends were searching for their section. I saw my name in section R5. I was sad because some of my old friends got separated. In R5, I did make new friends there, too. I became more attached to friends like Kritika, Melina, Rohina, Babita and many more. Really, they were close friends that I ever had. Sometimes our teachers became angry and scolded us.

All the teachers like Rita Ma'am, our class teacher was very sweet and dedicate, Krishna sir, Pankaj sir's acting, Bhadra sir's 'Why ha!' and Suresh sir's encouragement and of course his dialogue 'You are the showpieces, don't live in dream, stay in reality because dream never comes true', our chief sir, the guardian of Prasadi Academy, his surprising visit in the class, strict rules and commanding voice made everyone scared. Thank you sir, your inspiration made us better from good.

We were taken to Tribhuwan Park in the first week of Falgun saying unknown picnic spot. Even though it was usual picnic spot we students made it exciting and joyous. We all girls and boys danced a lot. I

danced madly at the picnic. My legs were paining but I didn't stop dancing. There are many unforgettable days of my life which are undefined. The picnic day was the most beautiful moment of my life. I have received knowledge, discipline and blessing from teachers.

Life is short and time runs very fast. It feels like yesterday I joined Prasadi but the time has come to leave Prasadi. Today I am attending the revision classes after pre-board exams of class XII. It is almost over now, and I will be away from Prasadi within few days but the days I spent in Prasadi will always be safe in my memories. I am proud to be a Prasadian and proud to say I am the product of Prasadi.

Conclusion: Prasadi is the best college. May Prasadi get success and may it achieve more progress in upcoming years! Long live Prasadi!

Lastly, I want to thank all the teachers for supporting and teaching us. And of course my dear friends who made my life glorious, outstanding, and exciting. I will be missing my teachers, my friends and my college days. "Good Bye' to Prasadi.

**Seema Chaudhary**
**XII R5, Mgmt.**

## THIS IS ALL ABOUT IT !

Memories sometimes play a very confusing role. It makes us laugh when we remember the days we cried and makes us cry when we remember the days we laughed. It's been 2 years it is a long time to make friends to know someone to be the part of something to form a bond and to collect enough memories to cherish life long. I feel my 2 years in Prasadi passed with a blink of eyes. I never realize bidding goodbye to Prasadi would cost me so much. I still remember the first day in Prasadi which indeed was the most memorable day of my life. The first day with unknown faces around, today seems like my own family. The first day, I still remember that the college ground was full of students. They were gathering here and there. We were informed to check our section in notice board. I had joined Prasadi with my two school friends Seema and Anish and luckily we three of us were in the same section S8. Our seat planning was done according to the roll number. So Seema and I had to be a part. I felt so bad at that time but also got a chance to react with new friends. But one tragic fact was my bench mate were so silent like an statue and the other one who were behind me they were faster than robots. But now when I turn back to take a glimpse of my college life, I want to stop the time and wish to live back in those days again. It was disgusting but with the passage of time I have many close friends. They are none other than close robots and statues of my 1st day. I hadn't even imagined that we could have this kind of strong

bond and enjoy the college days that much. Those strange friends have been the best among all. Let me share some of the memorable moments of Prasadi. I still remember Rajkumar sir. He and his teaching style, his favourite dialogue "Haina'. He used to be always a new taste in his teaching style. How can we forget his unique punishing technique? Full period standing at the back of class was indescribable. Bhogi sir's lecture was for our welfare but we never changed. His Nepali literature was fantastic. Manju ma'am was always loving and

caring. She always made us alert to be punctual. Pankaj sir- what to say! He was a perfect actor. He and his expression was superb! All the best sir!... Talking about R.B. Ma'am -she had always been my favorite teacher and now she covers so large space in me. I love you ma'am. She is so charming. Her dialogue was "Boys don't make noise." Thank you for everything Ma'am. Let's talk about our bad work and all stuff which we've done. We were so gluttonous that we used to take just 5-6 coupons but we used to eat 9-10 coupons that was our trick. We used to submit copies without doing homework and get punishment later. Grade XI passed by knowing friends and getting close to rules and adjusting in the college environment. Grade XII Prasadi was all ours because we were familiar with the environment . Yes in Grade XII all of us had separated, but we enjoyed a lot. We played kabbaddi, chhyoildum, haat tani, basketball etc. in break time. How can I forget our chief sir? I still get scared when I see him. I can't forget his worthy attitude and that terrifying slap. It's not a complaint for that but want to thank him for making us realize our weakness. Thank you, Prasadi. It is the institution which has built up our confidence and has made us feel that we can move on and do something ourselves. Thanks for all the teachers for giving us right track to move on. Thanks to the chief sir who has come up with such a wonderful thought of establishing an institute like Prasadi which can make everything possible that is why we have been able to be Prasadians.

Prasadi, thank you!

Proud to be a Prasadian!

Long live you and your success Prasadi!

# TWO YEARS IN PRASADI

It was my first day in Prasadi. I was late on that day and I searched for my name and section hurriedly. Then, I entered the class. Almost all the seats were reserved. My nervousness made my mind go blank. Every face was so strange. I couldn't decide where to sit. I suddenly saw my school's friend. I went and sat with her. Then, the teachers started to come and teach even without their introduction. That was really strange. As my cousins had studied here, I had only heard that the teachers would leave the classes when time was over. It was strange but later it helped us to work in time. All became so good friends, we started enjoying the classes. Teacher caught me while borrowing book from next section. Sunita ma'am caught me while reading the lyrics of a song and threw it in dustbin. Som Nath sir's pure Nepali speaking, RKS sir's detailed lecture and grand asking, Bhogi sir's calling every student's name with 'Ji' at the end and Sudan sir's commercial breaks were interesting. The time of Tiffin break wasn't enough. We couldn't manage but later even that time was more when we adjusted. Finally, grade XI also got over.

Soon, grade 12 started, I was so happy that some of my friends of grade 11 were in my class. At least, the first day of both sessions were different.

I found the teachers really cooperative, especially, Manju mam, I was very impressed by her speaking in 11 during exams and wished her to teach us English. The way she teaches us, automatically brings interest in us to study and learn more. Whenever she said, 'I am angry', we used to laugh. Her punishment up and down will be memorable. And other memories are :Rabin sir's scolding and funny examples, RKS sir's asking and students' presentations, Amatya sir's strict teaching and regular dialogues, advices, blames, etc, and Bhadra sir's making us do all the problems along with his doing on board. Doing homework during class hours, unexpected visit of chief sir, sudden bag checking

etc. can not be forgotten. Grade XII is also going to end soon. We enjoyed a lot in picnic.

It's unbelievable that two years have passed so fast that it feels as if it was few months ago when I joined Prasadi. My journey has made me believe that with time, everything changes and becomes able to get adjusted in any kind of environment. I'll miss all my friends of S11 and R4 and all teachers. All the moments in Prasadi (exams, class, canteen etc and the day of our picnic) are memorable and these days are going to be a part of my life. Goodbye!

**Salina Bajracharya**
**XII R4 Mgmt.**

## IN MY MEMORY LANE

"Time and tide waits for none".

Yes, it's the perfect saying. Time is a river which flows smoothly on its path without a halt. Nobody can control it and nobody can stop the time and it's the reality.

Now, very soon I'm going to get farewell from this institution Prasadi Academy. It seems to me that my two years at Prasadi passed away in a blink of eyes. Yes, it seems yesterday when I first stepped into Prasadi Academy. Yah! I still remember my first day in college. How can I forget that day in my whole life? The sweet memories of that very day is still fresh in front of my eyes. On the first day, I stepped at school at 6:25 am and there were many students. I asked one of my teachers to show my class. With a sweet smile he showed my room. While sitting in the classroom, I wondered what type of company I

would have, but even on that day I was able to make more than 10 good friends. I had a very nice starting.

When I was enrolled at Prasadi, I was ignorant I lacked self confidence. But in this institution I was privileged to gain good knowledge from qualified, experienced teachers and I also got to build self-confidence. I am sure, I'll be a successful person in my life.

Today, I have got name and fame. I'm known as a student of Prasadi Academy. I'm in debt to institution for whatever I've gained. I learned a lot, I gained a lot. Hence that I'll pay this debt by being a successful person in my life.

Finally, I'd like to thank all the teachers and administrative staffs who provided me with such good education and knowledge. I'd like to thank all my supportive seniors and juniors who supported me a lot. Lastly, I would like to welcome all the new Prasadians to this institution Prasadi Academy.

I am proud to be a Prasadian.

**XII R4, Mgmt.**

## IT'S ALL ABOUT GRADE XII (K2)

Come on come in to have a look at this wonderful site,
When XII K2 stands holding its head high with pride,
Not always bookish, but yes! totally new,
Bringing up new ideas in every morning dew,
Kukee is sweet girl who blushes everytime,
Santosh is so simple, his behaviour is a rhyme,
Ayesha and Shristi together sit and talk all the time,
No matter what happens Kabindra is URT sir's favourite,
Abhishek is a tall boy who talks as a flute,
Arpana smiles a lot as constantly playing lute,

Sudip acts kindly and smartly as well,
Look how kind Bibha is being,
Slight smile from Suja's face can never be apart,
Dibya is a good boy with nature really nice,
Namrata listens to people and needs no telling twice,
Bindhya is not so frank but silence is her talk,
Dikshya is always lost in her own world,
A charm fills the environment when Manorama is near,
Nesha Chamling is so unique, each and every day,
Brayan is pretty shy but his brain has nice trend,
Niraz is so much happy every moment is a joke,
Alyssa is chakchaki chulbuli girl of the class,
Sauden is the friendliest guy ever here,
Shouting and yelling Eva begins her whim,
Sarik only studies, remaining all wind,
Nisha Basnet is cute with talks very kind,
Prasanna with her friend Kavya is definitely very glad,
Roshan is cool one while Payal has much to do in rush,
Ashish hardly speaks while Gabina is quite talkative,
Anil is too gentle while Gimmi is never rude,
Ashaya the hero of class looks like hero of loot,
Prabin Chapagain's eyes are so lovely,
While Kanchan smiles showing her dimple,
Meritorious Sumin is very bold and clever but Asmita is bit serious,
Poonam has good thinking while Nistha speaks sweetly,
Shwasank irritates teachers saying what ? and why?
Ashesh the studious is quick to finish exam,
Saurav grabs the opportunity when he gets the chance,
Nimesh is more hardworking than seen ones by your eyes,
Prakriti is always herself, either up or down,
Come in class, you will hardly see Pragyat, the tall boy,
Bidushi has the capacity to give nice and healthy speeches,
Ujwal has sweet smile and ideas very bright,
Prabin Chandra is the most serious boy among all,
Arun, the padante is always eager to ask,
Samir's silly jokes will make all over our ears,
Kala is helpful and thoughtful too,
Asmita Sharma is determined and kind,
While Jeeban is fine and fast with his mind,
As for the year 2068 we truly had great fun being in XII K2.

| Political Leader: | Gagan Thapa |
| Flower: | White Rose |
| Animal: | Dog |
| Clothes: | Dress, Flowy Maxis |

Himalayas' and 'Goodbye Kathmandu'. Malvika has the quality of attracting others. The critics in the field of entertainment opine that she has succeeded in making herself still a center of attraction in a decade after being Miss Nepal. She has also acted in dozens of music videos. In 2010 Malvika has started running her own industry. Her company House of Alternative apparel which produces Made in Nepal clothes is one of a kind in Nepal, with its retail outlet at Uttar Dhoka Lazimpat. As an advocate of the need of personality development in the world of commerce, she has taught the students of Prasadi Academy along with other thousands of people. The students of Prasadi Academy got an opportunity to have a vivid talk with Malvika Subba who has been a role model for the youths of today. The talk has been presented below in brief.

Malvika Subba is the most popular Miss Nepal crowned till this date. As a celebrity after winning the Miss Nepal award, 2002, her power of expressiveness has been the most liked aspect for all. Besides her physical beauty, she also possesses the tag of the beauty of intellectuality. In a decade of working as a program presenter in television and a video journalist soon after being Miss Nepal, she has established herself as of the best level in other many fields. Though she said she would not be an actress, she has acted in two films of a different type: 'Gods Live in

**Prasadians:** What are you doing these days?

**Malvika Subba:** It has been more than a year that I have started my own business aiming for introducing Nepali brand clothes in the market so that Nepali consumers will enjoy wearing the clothes of attractive design despite the export of cloth from foreign countries. I have tried to prove that we can produce well furnished dresses in cheaper price than that of foreign brand in the readymade market. Though the nation's instable political condition has disturbed the business, there is still time to do something in this field. Besides this, I also want to conduct program in television and give time to my family. I have an aim of popularizing the Nepali brand clothes in the world market. I am also on board of an NGO, Himalaya Climate Initiative, and we will soon be launching Hamri Bahini project for the empowerment of women.

**Prasadians:** What kind of family background did you grow in?

**Malvika Subba:** I was born in a simple, middle class family. My father was in the police, so I grew up in various places of Nepal. While I was in class-VI, my father passed away suddenly. Then the whole family responsibility went onto the shoulder of my mother. Since my parents had an intercaste marriage, my mother faced a great trouble to run the family. Even though we did not have a hand to mouth problem, my mother was not able to manage all the needs we had. I do not remember that I had any toys to play at that time. Despite my elder brothers' education in a government school, luckily I got a chance to study in a private one.

**Prasadians:** It is said that all members love the youngest one in the family. How was your experience?

**Malvika Subba:** It is quite natural that the youngest one gets a little more love and care than the others. I have two elder brothers. I am 14 years younger than them. I was born in many years' gap as my father felt the necessity of a daughter in the family. I got much love and care I needed but I was not a pampered daughter. In fact, I grew up in such an environment that made me the person that I am today.

**Prasadians:** How did you carry out your educational journey then?

**Malvika Subba:** I was a studious student during my school life. I would study hard to maintain my level high in my study. But I used to be shy and reserved at the same time, despite that I never failed to participate in extracurricular activities. As it is said 'Where there is desire,

there is a way,' I tried to gain confidence by participating in all extra-curricular activities. In spite of the fear I never stopped taking part in such programs. Through my continuous effort, I succeeded to eliminate the fear in me. I passed S.L.C. from Gyanodaya Public School, Plus 2 from Galaxy, Bachelor's degree from Ace College and Master's degree in Mass communication and Journalism from Kantipur City college. I did my Masters with my own money while working in Kantipur Television

**Prasadians:** What was your future aim? How far have you been to in this process?

**Malvika Subba:** It is not sure that we can fulfill our aim of the early ages, but like other students, I also had an aim of becoming a doctor which changed itself as the level of studies became higher. When I was able to understand myself, I dreamt of television career that I have completed by now. At present I have developed a concept of television program of my own brand in mind, but it is really expensive to run such a program. As we grow bigger, our aim and planning also change. Now, I plan to become a successful business woman in the society. Because of it, I have started my business, I have a dream of being known as a talented woman, a pride for the Nepali society.

**Prasadians:** How much successful do you think you are? How close have you reached your destination?

**Malvika Subba:** There is still a lot to do in order to achieve success according to me. I am making a hard effort for this. Ha..ha..ha. I believe that hard work supports us to find out the way of success.

**Prasadians:** How much sure were you in being a celebrity?

**Malvika Subba:** All thoughts cannot be fulfilled in this world. Some can be fulfilled and some cannot. I had already worked in television for a short time before participating in the Miss Nepal contest. So I was sure that I would be known as a good television presenter even though I might not have a dream of becoming a celebrity as I am today. But my mother did not like it and now also she does not like my involvement in media line. However, that was only the field I had wanted to make my career in. My mother was not fully happy with my participation in Miss Nepal contest, too. Only half of my family members were happy in this matter but half of them were not. My sister in law was fully supportive to me as she also had already taken part in such contest. After being Miss Nepal, I got the tag of a celebrity. I was no more able to walk as I used to do in the previous days. As I had aimed of becoming a celebrity on the basis of my hard work, I got it fulfilled after achieving the Miss Nepal award with my strong preparation for it.

**Prasadians:** How do you describe Nepal's entertainment field then? Can today's generation seek their career in this field?

**Malvika Subba:** People have started understanding the meaning of entertainment in a proper way in Nepal. But while talking about entertainment we should never forget our duty, reputation and discipline. The entertainment under good management, discipline and reputation supports our personality development. The field of entertainment in Nepal has proceeded with the process of 'Do and Learn' and now it has been in the hand of the new generation. They are doing their best to instruct the public about entertainment in a new way. Career can be sought in this field, but for this, they have to study this field well. The first thing we need is the interest, the second is the study on it and the third one is the clear vision about doing further after being in this particular field.

**Prasadians:** How much important is education in life? Is it important for us to be educated in order to be in acting field?

**Malvika Subba:** It is not necessary to tell about the importance of education in this modern age. It will be our foolishness to imagine how much it is important for us to have education. Education is important because it provides us with guidelines and awareness in life. It may not be very important for people who are involved in acting field but I think, education certainly brings maturity to this profession.

Educated artists only can do justice properly to all kinds of acting roles if they have the technical knowledge also.

**Prasadians:** You are known to have been involved in various fields. Which field do you want to be identified with?

**Malvika Subba:** I have the experience of working under the impression of Miss Nepal, a model, video journalist, program presenter, a film artist, a program host or Emcee, as well as a business person. I want to be a well established business person in Nepal. For this, I have put my own business as priority. In the same way, I like the fields of mass leading and personality development, too. For this, I have an interest of running a school related to the collective leadership and personality development.

**Prasadians:** You were seen in the field of acting, too. But why have not you given continuity in it?

**Malvika Subba:** Frankly speaking, I did not show interest in film acting from the beginning. Even though there were many offers for different roles, I did not work on them. May be, because of that, I do not get any offers now a days. Now I am already 30, and I don't feel the need to strut around in skimpy clothes in commercial cinemas. Some time ago, actor Sunil Thapa made a special request to me for a short but influential role in 'Gods Live in Himalayas' that visualizes cultures of Nepal and India. I played a role of a loving mother in it. Likewise, I worked even in 'Goodbye Kathmandu' of Nabin Subba because I liked the script of it very much. 'Goodbye Kathmandu presents a heart touching subject matter on the escape of youth manpower abroad because of the degraded political condition and the critical circumstance invited by the Royal Palace massacre of 2058. In reality I do not have interest of being active in the acting field unless I get really good scripts.

**Prasadians:** How do you respect your beauty, physically or intellectually?

**Malvika Subba:** This is to be evaluated by others. I am in the field where I think there must be the combination of both physical and intellectual beauty. In fact, beauty depends upon the eyes of beholders. It does not mean that Miss Nepal possesses the highest level of physical beauty. I have come across many women who are much more beautiful than Miss Nepal. You also must have experienced it. In my opinion, it is very difficult to have physical beauty in comparison to the intellectual one. Through hard work, intellectual beauty can be earned. In conclusion, all people are beautiful in their own position. It only depends on how you perceive them.

**Prasadians:** It is said that the three aspects: intellectual fitness, attractive personality and pride have influenced your life. What do you say?

**Malvika Subba:** I am happy if given the tag of intellectual fitness and attractive personality, but how to define pride? It is sure that people mark us having a pervasive character if we live happily being close to all in society. On the contrary, we will be taken as a proud person if we move ahead in our own way without keeping any closeness to others. If I am called proud in this point, I accept this from my heart. I do not like to be close to any one by talking and doing work unnecessarily. There must come purity in all thoughts as it is said, "Fulko Aankhanmaa Ful nai Sansaara…".

**Prasadians:** Do you respect your own decision all powerful?

**Malvika Subba:** Yes. While doing anything, I decide myself what I feel right. My family, especially my mother was not positive to me with my involvement in media field but as time passed, they slowly turned to be positive. They were not positive to me even with my involvement in business, but now they take it well. It is my habit that I do not ask anybody about the work that I want to do. If I feel it is very necessary, I take others' views but decide things myself. One has to decide themselves about the things they want to do and work hard to make it happen.

**Prasadians:** It said that females are fashion conscious from their early age. How is your experience on your own side?

**Malvika Subba**: Ha..ha..ha. I was so 'paakhe' in my early age. It was may be because of my elder brothers in my

house. I was a tomboy. I would wear my brothers'clothes, even if it didn't fit me properly. I did not have idea about fashion at all. Now, there has come a new trend of following the reputed fashion that is relevant to time. It is a good thing. I was not conscious about dress until I crossed my school level. Only after the age of 18/19, I became dress conscious may be because of the realization of being a daughter. I was compelled to be a little more dress conscious after winning the Miss Nepal award. I remained in only a light make up for 25 years. Since then I am more fashionable, but I only wear clothes that suit me.

**Prasadians:** What is Malvika Subba's contribution in the field of social service?

**Malvika Subba:** In fact, whatever contribution we make in social service, it always becomes little. I also have a little contribution in this field. We celebrities, especially Miss Nepal, are usually asked how much contribution we have made for society. It really makes us feel uncomfortable to answer, because during student's life, girls become Miss Nepal. They do not have money. Their expenses increase more when they become Miss Nepal. Personally, I do not have enough property to make contribution in a society. So I am trying to earn some at present. Nevertheless, I have worked in some social organizations as well. I also have worked as a youth leader for Asia Pacific Youth Leadership Forum in relation to HIV AIDS. Similarly, I have participated and delivered a speech in New York conference as a representative from Nepal for the youth campaign against hunger of Action Aid. Especially as a member of MTV EXIT, I have worked as an MTV ambassador for Nepal in order to make a documentary against human trafficking under the MTV Exit Program. I also have participated in several public awareness programs. And now I am on board of HCI, which is about climate and contribution towards society.

**Prasadians:** You recently got married. How do you feel about married life?

**Malvika Subba:** I got married in the age of 30. Its just been a couple of months. I have just started to experience married life. I am a woman of today, so I have thought to bring change in society from myself at first. I have always been very independent, so I am taking some time to learn many things as a married woman. Secondly, I am trying to convince my family to take me as a daughter more than a daughter-in-law, who has to leave home early and return late after working many hours outside. Sometimes my meeting runs till late hours in the context of job. At such times, my family also has started to understand my issues. It is sure that we have some problems in the social and family structure like ours in Nepal. But I have tried to manage it. The greatest thing to succeed a married life is only 'compromise' between the couple and other members in the family. And my husband Riyaj Shresths is super understanding, I still don't feel like we are married at all, we are still in our relationship phase.( smiles)

**Prasadians:** How much are you interested in politics? Do you have any plan to involve in politics? How do you understand Nepal's politics?

**Malvika Subba:** Personally I am not interested in joining politics at all, but I cannot remain unaffected by the nation's politics as a citizen and a personality. I just started my business a year ago. My thought is to work hard day and night for progress, but on Bandha days, we are threatened not to make workers do their duty and conflict is created among the workers. If this trend continues, the situation will come that we have to stop running our business. In the context of involving in politics, I have not thought of it yet. I will play my role in the development of nation through organizations, but I will not take part in any political activities. As a conscious citizen, I want say that there must be clean politics and a stable government for our country's progress. There is a shortage of leadership to remain active in developmental work. The youth man power must be stopped from flying abroad and they must be involved in developmental work of the nation. For those who have been established abroad, a suitable environment is to be created in nation in order to make them come back to Nepal.

**Prasadians:** How does Malvika's day passes by?

**Malvika Subba:** I go to bed late, so I get up late in the morning. I get up at around 7/8 am. Nowadays I have developed the habit of drinking black tea. Then I read newspapers and check mails. For some moment I do internet surfing. After that I check my phone to know if I have a responsibility to run a program. I take a bath and then take breakfast. I leave home. I attend a whole-day meeting sometimes. I go to my factory or to my store at Uttar Dhoka, Lazimpat. Sometimes, I reach my husband's 'salsa' center. I attend some other social programs and campaigns. My routine goes ahead according to my diary. I also have to MC shows many a times so the evenings are packed. After 7 pm, I give my time only to my family forgetting all my outside work. I do not concentrate in other outside work after that.

**Prasadians:** Have you reached the condition of purchasing the things desired?

**Malvika Subba:** I have not been to the condition that I can buy a house and a car ha..ha..ha.. I like to go shopping by considering my needs and income. People say 'Ghati Herera Haad Niluparchha'. It is applicable to every one's life. I have been able to buy the necessary things that I need in my daily life. If I succeed financially more, one day, I want to own a house and a car.

**Prasadians:** You gave given classes to Prasadi students in the context of personality and leadership development. How was your experience in this case?

**Malvika Subba:** I tried to share my inner important things about life with Prasadi students. I do not know how much well you perceived and how much efforts you are making to implement them in life. But I have taken it as an opportunity for me to share some useful and important things we need in life, which I learnt myself. In the coming days, the student, brothers and sisters should move ahead by implementing all the learning's. Then only my lessons and the life of student brothers and sister will be meaningful.

**Prasadians:** What kinds of advice do you want to give to the student brothers and sisters of Prasadi Academy?

**Malvika Subba:** You should move ahead with hard work and dedication to your work. You should prove yourselves strong not only theoretically but also practically. Practical knowledge helps people to be more successful. Along with the bookish knowledge, you need to know about world in order to make life successful. You should utilize leisure time by doing something important, learning work or do some extra courses that will be supportive to you. Without having any fear and hesitation, participate in extracurricular activities. It will increase confidence in you. The more you sharpen your talent and skill, the more successful you become. Keeping all these in your mind, you will move ahead for your successful personality in the coming days. I wish you all the best!

msg : God is by so help yourself and Dignalaung walk alone...

Name – Suraj Bhetwal
Grade – 12, K'g'

Admiration – To the chief of Prasadi Academy He is hard working, wise and determined. We can learn from him to be the same, and thus to endure our own start, our new path, whatever that is, we have taken in our life.

"learning" is mainly done openly, "study", closely. A real study is often the scholar is above of mere thoughts. A real learning is when the scholars are free and independent of papers. Scholars should test a bit of this quick in their academic, say, intellectual "period".

Thank You P. A.

Bye Bye.
